4. Use these numbers to calculate the individual and team state qualifying number.

**Examples using Male, White Tees on Front 9 and the Division III Boys qualifying numbers. Because the course slope is 119 we will use the formula for courses with a Standard Rating (see the Qualifying Numbers on the following pages).**

**The course rating 34.8 rounds to 35.**

Individual:  $35 + 6 = 41$

Team:  $35 \times 4 + 28 = 168$

**If an individual shoots 41 or lower they have shot a qualifying score. If the team shoots 168 or lower they have shot a team qualifying score. Be sure to enter all qualifying scores using the forms found under the coaches tab at [aiaonline.org](http://aiaonline.org)**

## Division III

### \*\* Courses with Standard Ratings \*\*

Individuals (Boys)– Course Rating + 6 shots

Individuals (Girls)– Course Rating + 7 shots

Team - Course Rating x 4 + 28 shots

Coed teams need to use the boys course rating x the number of boys and then the girls course rating x the number of girls (total of 4 players) and add 28 to equal the qualifying score.

## Division III

### \*\* Course Rating Adjustment: \*\*
