The Modified Stableford scoring Method

- The goal is to use the Modified Stableford scoring Method for the girls Developmental League. At this point there are a schools interested and a reduced regular season schedule has been developed. AIA staff is waiting for the AIA Executive Board to approve.

Discussion items:

The possibility of a Division III or IV Fall Boys State Division, not something that the committee wanted to bring forward at this time.

Over coaching of players, especially individuals at the State tournament has begun to be a pace of play issue. Some coaches are walking the whole course (excluding green and bunkers) with one player and talking over every single shot with the player.

Should the no practice on site be eliminated? The committee agreed to keep the way it is worded at this time – no change.

The next meeting is May of 2017.

The meeting was adjourned at 11:25 AM. Craig Mai motion Frank Campos seconded all in favor. Motion passed
