

Memorandum

To: State Association Executive Directors

From: B. Elliot Hopkins, NFHS Baseball Rules Editor

Subject: 2010-2011 Approved and Unapproved Non-wood BESR baseball bat lists

Date: February 23, 2011

We have received a comprehensive list of approved and non-approved BESR non-wood bats from the NCAA Bat Certification facility at the Washington State University Sport Science Laboratory. The link is, <http://www.mme.wsu.edu/~ssl/certified/certification.html>. Please share this information with your schools and your registered officials. We trust this will reduce some of the confusion with the compliancy of many non-wood baseball bats. Thank you and please contact the NFHS headquarters if you have any questions.
