The 2017 Sollenberger Classic Preview

By Jose Garcia
azpreps365.com

Brophy and Pinnacle haven't gotten on each other's nerves after seeing each other so many times in the past couple of years.

That's because they respect each other, and it begins with the head coaches. In a sign of high regard, Brophy coach Scooter Molander once asked Pinnacle coach Dana Zupke how he could balance the duties of a parent and coach when a son is on the team.

On the field, Brophy and Pinnacle have played in cleanly and tightly contested matches. Last year's Sollenberger Classic result, a 31-10 Brophy win, was the only lopsided victory in the non-region battles between the 6A teams in recent years.

Brophy has won the last three meetings, including two first round playoff victories. The Aug. 19 meeting in the 11th annual Sollenberger Classic at scenic Flagstaff Coconino will mark the fifth time that Brophy and Pinnacle have met since Sept. 2015.

"I have tremendous respect for coach Zupke," Molander said. "He's a good person and a fine coach. It's an honor to play him and his team."

Zupke echoed Molander's sentiments.

"It (2016 Sollenberger Classic) was a great event at a great venue," Zupke said. "We enjoyed it and how we were taken care of. It was also great competition against a class program like Brophy."

Pinnacle walked into last year's game with 10 sophomore starters and injured but is more experienced than Brophy this year.

Pinnacle quarterback Spencer Rattler wore a wrist brace while on the sidelines in the 2016 Sollenberger Classic, missing his only game last season. The highly-touted junior quarterback committed to the University of Oklahoma this offseason and has thrown for 5,274 yards and 48 touchdowns in his first two high school seasons.

"Spencer is one of the best I've ever seen," said Molander, a former pro quarterback. "You just hope to contain him. He can extend plays and make every throw. A 7 on 7 is like a walk in the park to him."

For the first time, Spencer will work with veteran Arizona high school coach Mike Brown, who took over as Pinnacle's offensive coordinator this year.

"We call Mike the Mad Scientist for a reason, and I know why now, because I see the methodology behind it and there is a method to his madness, which is pretty cool," Zupke said.

Pinnacle gained Brown but lost the versatility of LB/RB Hunter Griggs, who moved to California.

But Zupke said his team won't miss a beat with DE Thans

Dixon and other players, including a sophomore Zupke didn't want to name but will likely be "very special." Brophy graduated its No. 1 running threat last year but might carry more depth at that position this year with four dependable backs.

A senior with mobility, Noah Gonzalez, will get his first shot to start at quarterback behind an offensive line that's bigger than last year. Strong safety Marques White also spent time running the offense in the offseason, but Brophy prefers to see him and his All-State secondary skills just on defense.

A top-rated long snapper, Colorado State commit Ross Reiter, will play nose guard for the first time this season.

"Ross is just a natural at nose guard," Molander said. "He's quick and has changed his body, dropping his weight but increased his strength."

Brophy might start a freshman, cornerback Denzel Burke, for the first time since the great Mike Mitchell did so in the late 1980s.

The 2017 Sollenberger Classic will start at 3 p.m. It's the second year in a row Coconino will host the game, which azpreps365.com will broadcast live.

SOLLENBERGER CLASSIC HISTORY

Quarterbacks Aplenty in 2017

Some Tote High-Caliber Offers, Others Have Title Rings

By Les Willsey
azpreps365.com

The state's prep landscape is alive with quarterbacks as the 2017 season begins. Lots of ordinary ones. And seemingly an overflow of extraordinary ones. Heck, three (Spencer Rattler, Tyler Shough and Jacob Conover) have offers from defending national champion Alabama.

Pundits are salivating over the collection of arms and legs possessed overall. Especially a consensus top tier. The array of field generals offer a mix of pocket passers, spread specialists and/or dual threats. A couple -- at best -- will emerge with a state title ring come November, but it's interesting to peruse those that have at least a full year under their belts.

THE VETERANS (two seasons starting)

Topping the list is Pinnacle's multi-sport leader Spencer

Rattler (6-foot-1, 175 pounds), also a very capable basketball player. A junior, Rattler enters his third season as the Pioneers' starter. He has passed for 5,274 yards and 48 touchdowns in two seasons. So far he's rustled up offense without much of a running game compared to other teams with high-octane QBs. He scrambled more last year and nearly tripled his rushing total from his freshman year. Earlier this summer, Rattler verbally committed to Oklahoma.

Breaking through in a huge way last year was Perry's Brock Purdy. Purdy (6-1, 197) is undecided on a college destination. He enters his senior year having passed for 4,527 yards and 50 TDs in two seasons. He's added 1,350 yards rushing and 10 TDs. Purdy shared quarterbacking duties for the Pumas in 2015 and missed three of 13 games in 2016 due to injury. Perry advanced to the 6A semifinals. He's a true dual-threat.

Lacking the supporting cast of Rattler and Purdy is Gilbert High quarterback Jack Plummer (6-5, 212). Plummer a senior, has made an oral commitment to Purdue. He's passed for 4,372 yards starting two years for the Tigers. Gilbert is 6-14 over that span.

STATE CHAMPS

A trio of quarterbacks fit this category after successfully navigating their first varsity season at the controls and landing championship rings. They are Chandler's Jacob Conover, Saguaro's Max Massingale and Williams Field's Zach Shepherd. Massingale is a senior. Conover and Shepherd are juniors.

The trio are different. Massingale (5-11, 180) is the latest in the line of run-pass dynamos at Saguaro. Massingale carved up defenses to the tune of 2,291 yards passing, 30 TDs and just four picks. He chipped in 1,012 rushing yards and 12 TDs. Defending Massingale can be maddening and made tougher with the presence last year of running back Shane Matthews, a 2,000-yard rusher his junior and senior seasons.

On the flip side is Conover (6-0, 185), who runs sparingly. No reason to just about any year of late at Chandler, which is overflowing with top-flight receivers and running backs. Conover threw for 3,715 yards and 32 TDs in 15 games last year. He tossed only five interceptions. He won't have TJ Green as a potent back to occupy defenses, but like Saguaro, Chandler has little trouble coming up with offensive pieces. Conover recently garnered an offer from Alabama.

Shepherd (6-0, 180) came out of nowhere and made a name for himself in his debut last season. He helped generate enough offense with his right arm to go with the Black Hawks' outstanding defense to turn back Centennial

HOW THESE TOP QUARTERBACKS RATE

Rankings nationally by 247 Sports as of 7/25/17

CLASS OF 2018

Hamilton's Tyler Shough ranked No. 4 nationally among pro style quarterbacks. Verbally committed to North Carolina. Received four other offers.

Gilbert's Jack Plummer ranked No. 22 nationally among pro style quarterbacks. Verbally committed to Purdue. Received 11 other offers.

Perry's Brock Purdy ranked No. 54 nationally among pro style quarterbacks. Has offers from NAU and UC Davis.

Cienega's Jamarye Joiner ranked No. 18 nationally among dual quarterbacks. Verbally committed to Arizona.

Saguaro's Max Massingale ranked No. 58 nationally among dual quarterbacks. Verbally committed to Air Force.

CLASS OF 2019

Pinnacle's Spencer Rattler ranked No. 3 nationally among pro style quarterbacks. Verbally committed to Oklahoma. Received 14 other offers.

Chandler's Jacob Conover not ranked. Has offers from Alabama, Utah State and Oregon State.

Williams Field's Zach Shepherd not ranked. No offers to date.

Casteel's Gunner Cruz not ranked. Has offers from ASU and South Dakota State.

CLASS OF 2020

Chaparral's Jack Miller no rankings. Has offers from Florida State, Mississippi, Arizona, Arizona State, Louisiana Tech and Memphis.

in the 5A championship game. Shepherd passed for 2,749 yards, 25 TDs and six interceptions. He completed 60 percent of his passes. Shepherd will be challenged bringing along a new receiving corps. He won't have a pair of 1,000-yard receivers to throw to. At least that we know of for now.

THE TRANSFER

A high-profile transfer from 2016 is sophomore Jack Miller, who left 2A Scottsdale Christian for 5A Chaparral. Miller (6-3, 197) wore out 2A foes as a freshman throwing for 3,653 yards and 53 TDs. He rushed for another 831 yards and eight scores. Miller will engage in a hardship appeal so his availability to the Firebirds may not start until midseason if his appeal is denied. Chaparral's offense certainly will be tailored to fit Miller, but the competition will ramp up from the 2A level. Many believe the jump up a few notches won't be a problem.

SEEKING DEEPER POSTSEASON RUNS

Three heralded players who saw their teams fall short of championship game appearances have legitimate chances to rectify that in their senior seasons. They are Cienega's Jamarye Joiner, Hamilton's Tyler Shough and Casteel's Gunner Cruz.

Joiner (6-2, 185) began his varsity prep career as a freshman in 2014 doing a little bit of everything (rushing, passing and receiving) for an 8-3 Salpointe Catholic squad. His 2015 (sophomore) season never materialized and he ultimately left Salpointe for Cienega. Joiner showcased the ability everyone got a glimpse of as a freshman. Last year he passed for 1,713 yards and 17 TDs and rushed for an additional 762 yards and 13 TDs. He has a verbal commitment to Arizona.

Shough (6-5, 187) will be the rare quarterback in this decade to pilot the Huskies for two varsity seasons. Shough, who recently gave a verbal commitment to North Carolina, threw for 2,079 yards and 27 TDs in helping the Huskies to the 6A quarterfinals. Shough got better and better as 2016 progressed and the Huskies are looking for the progression to continue. Shough spent the summer bouncing from one elite camp to another.

Cruz (6-4, 205) helped fledgling Casteel to a 9-2 record on a varsity squad comprised exclusively of sophomores in 2016. Cruz has a big arm, size that colleges crave and is field savvy beyond his years. He already has a couple offers with ASU one of them. The junior carved up 3A opposition to the tune of 2,600 yards passing, 30 TDs and just five picks. Casteel has bulked up its schedule subbing in two high-caliber opponents -- Show Low and Monte Vista, CA both of which were playoff teams. Monte Vista is few miles from San Diego. Those games figure to be a barometer for Cruz and Colts seeking a conference title sooner rather than later. Cruz recently was offered by ASU.

First AZ Prep Players to Play Pro Football

By Barry Sollenberger
(pictured here)

(The following story was originally published in the 2004 Phoenix Metro preseason football magazine, which Sollenberger helped publish along with his good friend Dave Kukulski and Kukulski's family. The first 12 Arizona prep players to reach the pro ranks did so between 1926-54.)

JAMES OLDHAM, PHOENIX UNION

The former Phoenix native is believed to be the first Arizona schoolboy product to play in the NFL, with the Racine Tornadoes in Wisconsin in 1926, the short-lived interstate rivals of the Green Bay Packers. Oldham, at 6-0, 190-pounds, was an all all-state forward in basketball and excelled in the shot and discus for the Phoenix Union Coyotes. But in football his 21 touchdowns and 127 points from his fullback position earned Arizona Player of the Year honors and captain of The Arizona Republic's 1923 All-State squad. The state champions only setbacks during a 9-1-1 season were a loss to the University of Arizona's freshmen and a scoreless tie with San Diego High. Oldham's three-TD day against Mesa nailed down the state crown. His college career in Tucson was short-lived, and he lettered only one year for University of Arizona's legendary coach James "Pop" McKale. While with Racine, he played three positions, end, blocking back and wingback.

NORRIS STEVERSON, MESA

A charter member of three different sports hall of fames, Steverson was the first from Mesa's proud football heritage to play in the pros. He is also the first Arizona State alum to reach the NFL. The pride of Mesa lettered in football and basketball at ASU and was an all-conference halfback in 1931. He was a member of the first ASU squad to beat rival Arizona in the 20th century.

Steverson signed with George Halas and the Chicago Bears after the Bears played an exhibition game against a Phoenix all-star team in 1933. But the Bears traded him to the NFL Cincinnati Reds before the start of the season. The Reds disbanded after eight games, and the Mesa native later played with the St. Louis Gunners. Steverson taught physical education at ASU, where he helped coach a variety of sports and is credited with founding the gymnastics program. He lettered in four sports at Mesa.

EARLE NOLAN, TUCSON

The first Tucson High and second University of Arizona alum to land in the pro ranks was Nolan. Nolan was a first-team all-

state shot put and discuss champion. In college, Nolan played three years for Wildcat coach Tex Oliver, and competed on the UA track team in all three weight events, including the javelin, and competed in the 1936 Olympic track and field trials. But football and boxing were his favorite sports. He won all 20 amateur boxing matches he entered.

In 1937, Nolan signed as a tackle with the NFL Chicago Cardinals for \$135 a game. "The Cardinals coach, Milan Creighton, used all of his top players against me during a tryout," recalled Nolan in 1989. "Then the coach put on a football uniform and went against me. I made the team. I don't think they thought a player for a professional team could come from Arizona."

After two years in the NFL, Nolan joined the Marine Corps. He fought at Iwo Jima and Guadalcanal during World War II, received the Navy Cross and was promoted to captain.

"I don't think pro football had the same feel or spirit for him that college ball did," said Nolan's son-in-law John Krygelski, after Nolan's death in 1991. "Most of what he reminisced about were his college days."

CECIL AND CARL MULLENEAUX, PHOENIX UNION

The first brother act from Arizona's high school ranks to play in the NFL, Cecil and Carl were multiple sport stars, and Cecil

multiple teams, including the New York Giants, Pittsburgh Steelers, Packers and Columbus Bullies. Carl's career, which was interrupted briefly by military service, was more stable. He spent six years as a starting end for the Packers. The other receiver for the Packers was Hall of Famer Don Hutson.

TOM GREENFIELD, PEORIA

Peoria's inductee became one of the University of Arizona's most decorated football players, earning All-America and all-conference honors as a center. In basketball, he was a forward for U of A's Fred Enke's always strong Wildcat roundball teams. In 1949, Greenfield was selected to the school's half-decade team by the Arizona Daily Star and to the All-Time Rocky Mountain Collegiate Team. The 200-pound Peoria native played center for three years for the Packers under legendary coach Earl "Curly" Lambeau.

SONNY KARNOFSKY, PHOENIX UNION

As an underclassman, Karnofsky was a star on the school's six-man football team. He wound up helping the school win a state title and earned all-state and Six-Man All-America recognition as a sophomore in 1938.

Although World War II interrupted his college career, Karnofsky's place in NFL history took a strange twist after the war. When the world conflict ended, the popularity of the NFL boomed. Record crowds attended both pro and college games. On Sept. 16, 1945, in Philadelphia, Abraham "Sonny" Karnofsky, a rookie, scored two touchdowns on short runs as the Eagles upset the Green Bay Packers 28-21 before 90,218, the largest crowd to watch an NFL game at the time.

HENRY "HANK" STANTON, CLIFTON

The rangy end from Clifton, and one of University of Arizona's all-time greats, set NCAA records with 50 catches and 820 yards in 1941. Before two-platoon football, Stanton was a dangerous end-around artist, a damaging blocker and a gifted defensive player.

He wound up becoming U of A's first All-American receiver. During World War II, Stanton served as a captain in the U.S. Army. Prior to enlisting he was drafted by the Brooklyn Dodgers, but his military obligations put his pro career on hold. He eventually found

his way into the professional ranks, and played two years with the New York Yankees of the All-American Football Conference, a team that existed from 1946-49.

HAL PRESCOTT, PHOENIX UNION

The future pro made the most of his only varsity season as a versatile two-way end, the same positions he played at Hardin-Simmons in Abilene, Texas, and with three professional teams.

(nicknamed "Brute") was a two-time all-state pitcher. In 1928, Cecil teamed with star infielder Hank Leiber to guide the Phoenix Union Coyotes to the state baseball championship. Carl, nicknamed Moose, was an end and Cecil was a fullback on the state championship team they played on at Phoenix Union. Carl's college career flourished at Utah State, while his brother became a starter at Northern Arizona in Flagstaff. During a 10-year pro career, Cecil played fullback and center for

At Hardin-Simmons, which competed briefly in the old Border Conference, Prescott earned his spurs as a quality receiver and tough, hard-hitting defensive end. After World War II the former Phoenix native played one year with the Packers, three with the Philadelphia Eagles, and one with the New York Bulldogs. He was a member of the Birds' back-to-back NFL championship teams in 1948 and 1949.

MORRISON WARREN, PHOENIX CARVER

Warren's athletic career began at the Phoenix Colored School (later Carver High) during the Great Depression years in 1930s. In those days, African-American students weren't allowed to attend nearby Phoenix Union. The Monarchs, located on Grant Street, played an independent schedule in most sports, except for track, a sport they dominated at the state meets in Tucson. In 1946, Warren became one of the first two African-American athletes to play at Arizona State.

The other was teammate George Diggs. In 1947, as a fullback/linebacker, Warren played in the same college backfield with legend Wilford "Whizzer" White. "He was a great guy and a great person," said White after learning of Warren's death in 2002. "He was a real tough football player." Warren and Diggs often faced racial discrimination during Border Conference games. But when ASU refused to schedule schools which wouldn't allow every player to stay in hotels together, things changed for the better. A former president of the Fiesta Bowl, Warren played one year of pro ball after college with the Brooklyn Dodgers of the All-American Football Conference.

DON CORBITT, PRESCOTT

The first athlete from northern Arizona to reach the playing fields of the NFL, Corbitt was one of the state's all-time great high school and collegiate centers. He was the Washington Redskins' center in 1948. As a 6-3, 205-pound high school senior, Corbitt was a two-sport star and first-team center on The Arizona Republic's 1941 all-state squad. In Washington, Corbitt's quarterback was NFL legend Sammy Baugh. Corbitt's career was interrupted briefly by World War II, where he served in the Navy.

FRED ENKE JR., TUCSON

Tucson High's rich athletic heritage has had its share of legends, and Enke is near the top of the list. The son of the late University of Arizona basketball coach with the same name, Enke was a three-sport star at Tucson during the early 1940s, a Hall of Fame athlete at the University of Arizona, and the first quarterback from Arizona's high school ranks to start in the

He set a Wildcat school record for total offense with 2,973 yards. Enke Jr. played pro football from 1948-54 with the Detroit Lions, Philadelphia Eagles and Baltimore Colts. 150

6A Conference Football Preseason Rankings

The 2016 Chandler Wolves celebrate their 2016 6A Football State Championship (photo by Mark Jones of maxpreps.com).

By Les Willsey
 azpreps365.com

1. CHANDLER: The defending champs are loaded again. They lost elite running back to graduation, but with a highly efficient veteran quarterback, superb receivers and solid returners on defense the Wolves have much to look forward to. Chandler opens the season hosting Red Mountain on Aug. 18 and then challenges IMG Academy on Aug. 26 at Austin Field. Those will be good tests to see if the Wolves are up to the task of a repeat. In six seasons under current coach Shaun Aguano, Chandler is 62-17 and has reached the semis or better four straight years. Still looking for back-to-back crowns so that's a goal at the end of the rainbow.

2. MOUNTAIN POINTE: It wouldn't be the top four without the Pride checking in at one of the higher slots. Coach Norris Vaughan believes running back Gary Bragg is the best in the state. Bragg nearly topped 1,000 yards in half a season. Bragg is on the rebound from a season-ending knee injury. The defense, with loads of size and experience, should be enough for another title run after last year's runner-up finish. It will be the first full season for junior quarterback Nick Wallerstedt. Wallerstedt won't have to be special if the ground game is as good as it usually is and Bragg stays injury free. The Pride's defense should be able to offset any offensive shortcomings in tight games.

3. HAMILTON: Perhaps going out on a limb here, but the Huskies are hungry after the turmoil of the offseason. Interim coach Dick Ban-

iszewski is confident in this team. An improved defense is a must as the team suffered through its worst year ever stopping the opposition. Hamilton's 7-5 season was a two-point conversion stop away from advancing to the semifinals. With Tyler Shough at quarterback, one of the many elite-level QBs most contenders have, there is optimism for a deeper postseason run and less of a bumpy ridge getting there. Hamilton opens the season Aug. 18 against Boulder Creek.

4. PERRY: Offense shouldn't be a problem for the Pumas as they try to replicate last season's title run that maxed out in the semis but yearn to take it further. Playmakers abound with the prolific Brock Purdy, who may want to be a little more careful with the football this year. Where Perry must be stouter is on defense. It shouldn't take 60 points to win a football game, certainly not in the playoffs. Perry will conclude its first decade as a varsity program this year and has postseason appearances in seven of the nine (one year was an independent schedule). And while five of the seven were one-and-done, postseason is postseason. The Pumas are playing with the big boys now and need to continue an upward trend to reach the level of their Chandler brethren.

5. PINNACLE: Like most of the top teams in the conference, the Pioneers rarely lack offensive firepower. It won't be the case for the immediate future with Spencer Rattler at the controls. Pinnacle averaged 33 points a game last year, but gave up a like amount. The difference-making unit coach Dana Zupke is banking on in the new season is defense with as much experience back as any in recent memory. With that experience must come improvement. The Pio-

neers again face the conference's most treacherous non-region slate with games against Brophy Prep to open the year in the Sollenberger Classic in Flagstaff. That matchup is followed by Basha, Chandler, Mountain View, Centennial and Mountain Pointe. All of those teams qualified for the playoffs last year and three played in title games. Pinnacle won the Desert Valley Region last year to cement a playoff berth. Its region foes -- Boulder Creek, Desert Mountain, Horizon, Mountain Ridge and Sandra Day O'Connor-- all have new head coaches this season.

6. RED MOUNTAIN: After a somewhat rocky search for a new head coach the Mountain Lions settled on in-house staff member, defensive coordinator Mike Peterson, to pilot the program. Peterson must follow up Red Mountain's deepest playoff run since 2008 when the school last reached the semifinals. The largest school in the Mesa district has plenty of athletes to choose from and an abundance of key returnees. Red Mountain played its best football in the latter half of 2016. It avenged a regular-season loss to Skyline and beat Brophy in one of the typically close games the teams play. The Mountain Lions were able to hang with Mountain Pointe to the finish in a seven-point semifinal loss. Red Mountain's first three games are a swift test -- Chandler, Hamilton and Basha.

7. DESERT RIDGE: The Jaguars return a decent group of standouts, but are likely to fill holes with anywhere from five to eight sophomores. The transfer of sophomore Jason Harris to Higley leaves a gap, but coach Jeremy Hathcock's team will move forward and look to challenge for a region title with the likes of Mountain Pointe and Desert Vista -- teams the Thunder split with last season. Desert Ridge will have a smaller offensive line than usual to lead the way for talented backs Tyrese Allen and Donjae Logan. They led the Jags in rushing and are the top two returning receivers. Desert Ridge has pretty much trade-marked itself as a final-four program. That may be a tougher go this season with a younger set of varsity starters. Desert Ridge has reached the big-school final four six times in seven years this decade, including two finals.

8. SKYLINE: The Coyotes are itching to get back to competing after their gut-wrenching quarterfinal loss to Red Mountain last November. They'll have their share of new faces, but coach Angelo Paffumi practically wills the program to success. He is currently the dean of Mesa district head football coaches as he begins his sixth season at the helm. Skyline lacks the numbers of most of the other top contenders at the varsity level. It's earned its way to postseason four of the last five seasons with a relentless running game and good enough defense to win 74 percent of its games. Paffumi sports a 43-15 record in his five seasons as coach.

9. DESERT VISTA: The Thunder hit their stride late last season, winning five games in a row, to turn around a 2-4 record at the time. The season came to an abrupt halt with a 62-7 shellacking from the runaway train known as Chandler. Coach Dan Hinds is advocating a better passing game this year with untested quarterback Derek Kline, who moved in from Reno, Nev. Kline is 6-foot-5 and 210 pounds and possesses a strong arm. More starters return than graduated, which on paper is a plus. The season-opener with Perry should be interesting as the Pumas began their ascent to a breakout season last year with an overtime win. Desert Vista also faces Basha, Skyline and Brophy in its non-region contests.

10. WESTVIEW: The Knights are a perennial westside contender, giving the eastside dominance in the conference fits at times in the regular season and occasionally in the postseason. Coach Nick Gehrts enjoyed a productive first-year running the program, guiding them to the Southwest Region title. Westview's season ended with a 34-26 first-round playoff loss to Desert Ridge. Running the ball likely will remain Westview's forte with what is likely to be more a backfield by committee. Gehrts is excited about the ability of this year's defense, which will be tested by Centennial, Basha and Brophy in the early portion of the season.

Strengths of offense during summer: We have a solid group of receivers with a healthy mix of experience and youth. Their speed will put pressure on opposing defenses and open up opportunity for us to spread the ball around and establish a mix of run and pass.

Strengths of defense during summer: We are loaded with linebackers that should be the strength of defense. We with a group with attack mentality so I expect them to put pressure on opposition and created turnovers and big plays.

Team's biggest question marks heading into summer: We will be young and inexperienced at many positions so our biggest question marks will be how fast we can come together and play as a team and how fast we mature at those positions.

Potential breakout players: On offense, Justin Hintze is switching positions and playing quarterback this season. He brings speed and play making ability to the position. Aaron Pfannenstiel is coming off a season where he was injured and missed most of the year. If healthy he has the potential to be the main target at WR. We have a good group of young receivers with solid hands and good speed including David Doucet and Preston Miller. Hudak is a highly rated long snapper and will be a leader on the line for the next few years. Defensively, we have a strong group of linebackers including Danny Radan, Jacob Wen and Braiden Manusina. Ethan Oelschlager, Anthony DiGiorgio and Ridge Wilkenson will be dangerous in the secondary.

Which of your player(s) unexpectedly blossomed into starters over the last 2-3 years: Parker Redd. Moved from quarterback as a soph to receiver last year. Hard work has put him in starting role.

Unique human interest story? Verbalaitis family connection. Rick and Hugh Verbalaitis, who were products of Shadow Mtn. and both played D1, have collectively three sons in the program. Potential breakout players: Running back Menjivar and sophomore offensive lineman Robert Miller, an out-of-state transfer.

Which of your player(s) unexpectedly blossomed into starters over the last 2-3 years: Linebacker Ernesto Alvarez's commitment to excellence is now paying off for him.

Unique human interest story? We had 16 players go to the FCA (Fellowship of Christian Athletes) which has caused a huge positive ripple effect throughout our program.

2016 record: 4-6

Returning starters on offense: 2

Returning starters on defense: 3

Returning key players and stats: Sr. RB Davon Jones (5-8, 170, 794 yards rushing, 9 TDs); Sr. OL-DL Alex Torres (6-1, 240); Sr. WR-FS Fernando Garcia (5-6, 135, 54 tackles); Sr. LB Saafir Newton (5-7, 165, 69 tackles); Jr. WR-DB Isaiah Kellum (6-0, 175).

Strengths of offense during summer: We have speed from a

number of different players. Jones and Kellum were part of the state qualifying 4X100 team. We will be effective running the football.

Strengths of defense during summer: Again speed. All of our positions can run including our projected DL. We will rally to the ball and force takeaways.

Team's biggest question marks heading into summer: Quarterback. Little varsity experience at this position. It is a work in progress.

Potential breakout players: Kellum will help us as a receiver/defensive back, but also as a kick returner. Junior running back Alfred Jordan was the leading rusher and scorer for JV last year. Junior Anthony Nikias was the best defensive lineman on JV last year. I expect both of them to step up and be good varsity players.

Strengths of offense during summer: Strengths will be our speed at the skill position and running after the carry or catch. **Strengths of defense during summer:** Speed will definitely be our strength and swarming to the football.

Team's biggest question marks heading into summer: How we bond as an entire program since coming over some adversity within the past few months of change.

Potential breakout players: WR-CB Quest Mays, DL Frankie Hollinquest, RB Davon Fountain, WR Jaleon Taylor, WR Isaac Oliver, DL Santana Simmons, CJ Palmore

Strengths of offense during summer: Experience at quarterback position.

Strengths of defense during summer: Returning defensive ends.

Team's biggest question marks heading into summer: Line play and playing for 48 minutes.

Potential breakout players: Senior Cristian Reyes. He's an athlete.

Unique human interest story? Dre Archer was a big surprise last year for us.

8, 180, 1,218 yards rushing, 15 TDs); Sr. OL Dallas Pena (6-4, 265); Sr. OL Blake Relyea (6-0, 240); Sr. WR Braeden Houx (5-10, 185, 25 receptions, 355 yards, 5 TDs); RB German DeLeon (235 yards rushing, 3 TDs); Sr. LB Christian Alvarado (5-10, 195, 92 tackles, 6 sacks); Jr. DL Walter Fa'Apouli (6-2, 260); Jr. SS Alex Zacek (41 tackles, 3.5 sacks); Sr. DB Trevion Hunter (5-6, 151); Jr. LB Daniel Villegas (5-11, 170); Sr. LB Bruce Amieafola-Brown.

Strengths of offense during summer: Our offensive line should be a strength with both of our top running backs returning. Competition at quarterback as both candidates have to prepare and perform each day knowing it's tight competition.

Strengths of defense during summer: Returning all four starting linebackers and potential D-1 defensive end in Fa'Apouli. A corner who can cover man to man as well as anyone we have had in Hunter.

Team's biggest question marks heading into summer: NA.

Potential breakout players: Hunter has matured so much to be able to play both ways at WR and corner. Alvarado had a good junior year only eight months from total knee reconstruction and should only get better.

Unique human interest story? Wide receiver Braeden Houx and how far he has come in his life. From a poor home life, living in a car, etc. I think he would be a great story on how to overcome -- mentally and academically.

Strengths of offense during summer: Lots of depth at running back. We have six who can be very productive in our offense. This will be one of the biggest lines we have had in a few years.

Strengths of defense during summer: Speed and we will be better in the secondary. We also gained depth in the back end of our defense.

Team's biggest question marks heading into summer: How well our offensive line developed over the summer. They've got to get stronger and be more aware.

Potential breakout players: Offensively it's Fallers. He has backed up Ryan Martinez for three years and is ready. Defensively look for Joel Zurita to have a big year and Dominick Russell is a guy who doesn't get much recognition, but he creates some havoc in the trenches.

Unique human interest story? Having former head coaches George Burgess and Rudy Pacheco and between them close to 100 years of coaching experience. Coach Pacheco is moving over to the defensive side of the ball to pair with coach Burgess who is our defensive coordinator. They both really have our defense going in the right direction. It is fun to learn from both of them.

Strengths of offense during summer: Offensive line has good size and good feet. Solid in pass protection and run game.

Strengths of defense during summer: Athletic unit that runs well.

Team's biggest question marks heading into summer: Since coaching staff came in late, will players solidly execute new schemes on both sides of the ball.

Potential breakout players: Issic Gomez, RB/DB; Mike Valdez, QB/S; Michael Johnson, TE; Fernando Marquez, CB. Coaching staff is extremely excited of the work ethic and energy the players have shown so far.

Returning key players and stats: Sr. RB Kris Jackson (6-0, 215, 775 yards rushing, 8 TDs); WR-DB – Eddie McClendon (6-1, 190, 24 receptions, 499 yards, 4 TDs); OL-DL Nate Montague (6-2, 260); So. OL-DL Lingi Havea (6-0, 310).

Strengths of offense during summer: Will be our rebuilt offensive line. They are stronger, bigger and more agile than last year. They will be key to our success as they open holes for Kris Jackson.

Strengths of defense during summer: Will be our front seven. We are much bigger, faster and stronger to defend the run compared to last year.

Team's biggest question marks heading into summer: Trying to replace Leon Morgan in the return game. Also can the defense

gel to stop the run. Mesa will be a sleeper and a force to be reckoned with as the season progresses. I believe our underdog status will serve us well this year. We have 12 returners compared to 4 last year. That will be the difference in our growth this year.

Potential breakout players: Kris Jackson has the potential to have a great year if he stays healthy. The team will depend heavily upon him to carry them to the playoffs. Kalani Brubaker will be a force to be reckoned with at outside linebacker. Lineman Nate Montague. And keep an eye on junior Saafe Fetu'u. He is 6-5, 290 and our starting left tackle. He transitioned from the basketball team.

Strengths of defense during summer: Good strength and quickness. Hollen is an excellent MLB and state runner-up at 190 in wrestling. Defensive backs are experienced and good. Punter is excellent

Team's biggest question marks heading into summer: A new quarterback needs to play. Brandon Nunez has skills but hasn't played. Three new receivers need to be worked in to the offense.

Strengths of offense during summer: The "new pro-style" offense will have tempo, balance and execution.

Strengths of defense during summer: The defense is experienced, deceptive and very, very multiple.

Team's biggest question marks heading into summer: Quarterback. Austin Duffy has decided to make a run this fall at the fall baseball circuit to be drafted high or well.

Potential breakout players: Lawson had a big year last year. Gerald Wilbon had an exceptional spring at receiver. Justin Coleman is an intuitive safety on the run & pass as we have ever had. Mack Klafter should simply dominate the line of scrimmage and

catch a million balls at tight end. Delton Jackson might put a hurtin' on his own mother at mike linebacker.

Which of your player(s) unexpectedly blossomed into starters over the last 2-3 years: Expect big things from Blake Fitch at receiver and possibly quarterback.

Unique human interest story? Carter Wheat, son of NFL lineman Warren Wheat (Seahawks), tore and ACL on the turf at Brophy in passing league last summer did not play last season due to that injur. We expected him to start at weak side outside linebacker and possibly tight end. He is back and is working hard, having a great spring and doing great things.

Strengths of offense during summer: Led by junior quarterback Steven Castle and Wood, the offense will look to reload and continue a commitment to a physical ground game.

Strengths of defense during summer: Three of four returning starters on the line will help anchor a unit that may lack varsity

experience but is talented and physical.

Team's biggest question marks heading into summer: Who separates themselves as starters on the offensive line out of a young talented group.

Potential breakout players: Sophomore linebacker Zach Kriens, sophomore RB-LB Ethan Trusedale and Castle.

Which of your player(s) unexpectedly blossomed into starters over the last 2-3 years: Senior linebacker Angelo Arvayo SR LB and junior safety Andrew Vadney.

Unique human interest story? Seven years ago varsity assistant coach Ken Polamalu had a stroke, but you would never know it. Coach Pola as he is known around the program is Skyline's equipment manager. But he is more than just the guy that sizes you for equipment. Coach Pola is always looking for ways to give back to a sport that he loves and last summer he gave back in a major way as part of the AIGA FOUNDATION which provides equipment clothing and coaching back to the Island of Samoa. Last summer with the help of the Arizona Cardinals as well as other high schools in western United States, Coach Pola was able to collect and send over 300 pairs of cleats to the Island. In addition he was able to send much needed equipment to such as shoulder pads and helmets that were also sent over to Samoa. Coach puts in countless hours of work in to a foundation that he truly believes in. Skyline is truly blessed to have someone like Coach Pola as part of its program and its growing football family.

Strengths of defense during summer: On this side of the football we added defensive coordinator Jesse Hart to give us some much needed consistency.

Team's biggest question marks heading into summer: Expect big things on both sides of the ball from returning starters Mecham, Collier, Ayer, and Sonasi. Strengths of offense during summer: For the first time in years the Huskies will have a returning starter at quarterback in Shough. Jordan could be the most explosive running back in the state. Remember the name Brandon Schenk because he could be the next great Husky wide receiver.

Strengths of defense during summer: A new defensive coordinator and a new energy under long time coach Brian Belles. His first year at Hamilton. The defensive front is loaded with Maslin, Torrez, Corn and Guerreo is also a force.

Team's biggest question marks heading into summer: Making sure the players are focused on the field and not listening to people that may attempt to distract their focus.

Potential breakout players: Schenks, Guerrero, Parson, Meriwether, Armenta, Rusch, Makaila and Olivero.

Perry

Head coach: Preston Jones

2016 record: 11-2

Returning starters on offense: 8

Returning starters on defense: 8

Returning key players and stats: Sr. QB Brock Purdy (6-1, 197, 3,333 passing yards 42 TDs, 11 INT); Jr. WR-QB D'Shayne James (6-3, 210, 585 yards passing, 229 yards rushing, 35 receptions for 571 yards); Jr. WR Colby Dickie (5-9, 170, 61 receptions for 1,039 yards); Sr. TE Tate Speaker (6-5, 220, 14

receptions for 231 yards); Sr. C Zach Neff (5-11, 240); Jr. DE Travis Beckman (6-4, 240, 30 taackles, 3 sacks); Sr. LB Douglas "Javy" Reynolds (6-1, 220, 60 tackles); Sr. LB-S Cutter Hatch (5-9, 180, 87 tackles); Jr. DB David Eppinger (5-9, 160, 46 tackles, 5 INT); Sr. S Braden Ford (6-0, 180, 48 tackles); Sr. DB Darius Holton (5-10, 160, 22 tackles).

Strengths of offense during summer: Purdy missed the first three games of the season and was still threw for 3,333 yards. He is surrounded by a talented and young group of receivers with James, Dickie, Clay Schmitz and a big target tight end in Speaker. **Strengths of defense during summer:** Perry's secondary had a lot of growing pains with a complex new defense to learn, but as the season progressed there were glimpses of how talented this group really were. They are only getting better and are gaining more experience and confidence in their coverages. The Pumas have a solid core of three talented young men who do an excellent job for the defense -- Holton, Eppinger at the corners and Ford at safety.

Team's biggest question marks heading into summer: Biggest question marks are with both their offensive and defensive lines. They have a lot of positions needing to be filled, but their line coaches Clatterbuck and Snyder on the offensive side and Harder and Scott on the defensive side always do a great job of getting these young men prepared and game ready for the season.

Potential breakout players: James, Holton and Reynolds. James on offense and Holton and Reynolds on defense.

Which of your player(s) unexpectedly blossomed into starters over the last 2-3 years: It is always a pleasant surprise to get a sophomore who not only starts for a varsity team, but contributes to the squad significantly. Juniors David Eppinger at cornerback and Travis Beckman at defensive end, both fit the bill for Perry this last season. Both made essential contributions last season and will make Perry's defense even more competitive with their play. On the offense, Perry has junior wide receiver Clay Schmitz. Schmitz fills in as a reliable fourth target for quarterback Brock Purdy. Junior offensive tackle Brayden Rohme has demonstrated the potential to be a solid anchor for a young offensive line.

Unique human interest story? This will be Perry's 10th year as a program playing varsity football.

Strengths of offense during summer: If our line stays healthy we will have a strong running game with an experienced group of up front and two returning starters at running back.

Strengths of defense during summer: Our front seven have a lot of varsity experience. During spring practice I have seen them exhibit good instincts and energy. I expect them to lead our defense this year starting with our two inside linebackers

Team's biggest question marks heading into summer: There will be a tight battle at quarterback and wide receiver. The quarterback battle will probably take us up to the first week of the fall season and the wide receivers are changing to a system that they are not used to and will have the hardest adjustment. On defense we have

a talented secondary, but lack coverage experience.

Potential breakout players: Cullimore and Wood will be the few two-way players that we have. They have the potential to do some special things.

Take Cover, West Valley O-Lines Rumbling Through

Three of Centennial's finest offensive linemen – Daniel Thomas (78), Trevor Renfro (74), Carson Keltner (65) (photo by Paul Campbell of maxpreps.com)

Tectonic plates aren't shifting within a 35-mile radius in the West Valley.

It's just the state's best offensive lines rumbling across football fields. Those units belong to Goodyear Desert Edge, Peoria Centennial and Glendale Deer Valley, where some of the top-rated movers and shakers in the 2018 senior class also play.

Besides the proximity of these West Valley trench-men, the other intriguing story line is that these three o-lines likely will have a big hand in determining the 5A race. Centennial is the preseason favorite in the 5A, Desert Edge is a top-5 team, and Deer Valley, the home of Arizona's No. 1 high school offensive lineman recruit, Joey Ramos, will be in thick of things as well.

"2017 is a stellar year for offensive linemen on the west side," said one of Arizona's leading recruiting voices, Jason Jewell. "Which one is the top line? Who cares. All are very talented."

CENTENNIAL

Coming off a 2016 state runner-up finish, Centennial returns four of its starting o-linemen, right guard Trevor Renfro, left tackle Jacob Fyffe, right tackle Daniel Thomas and center Carson Keltner.

Austin Young (76), Connor McGee (53) and Max Wilhite (71) are mainstays in the Desert Edge O-Line (photo by Mark Jones of maxpreps.com).

They also played a big role two years ago when Centennial won a championship.

"They are bigger and faster than last year," Centennial coach Richard Taylor said.

Renfro (6-3, 268), a senior, just set a school bench press record (465 pounds), and Carson (6-2, 270) added 30 pounds to his frame.

Taylor was skeptical of Renfro's prediction of starting for Centennial when Renfro was a 160-pound freshman.

"He was a skinny kid, and I just told him, 'Well, keep working,'" Taylor said.

He did just that and then some to become a team leader. "I haven't had a player as dedicated and hard working as Trevor is in a long time," Taylor said. "He is self made. He made himself into an outstanding player."

Taylor also praised offensive line coach Joe McDonald for preparing not just this year's road graders but also the numerous linemen, including several college players, that have played for Centennial in the past 24 years.

"Joe does a heck of a job," Taylor said. "He doesn't care about wide receiver formations or the what the running backs are doing. All he cares about are his five guys and making sure they are ready."

"He's also always concerned that they are doing the right

things in the classroom. Character is also important to him."

McDonald's boys this year aren't as big as his previous classes, but Centennial's defensive linemen might disagree.

"They (offensive line) are blue collar guys who come and work hard every day," Taylor said. "They are going to be efficient and be very good at completing tasks. It's a goal-oriented and driven group. As a matter of fact they are beating the crap out of our defensive line right now."

The next batch of Centennial's hosses are on campus already.

Taylor said his freshman line might be bigger than the varsity's line.

DESERT EDGE

Like Centennial, Desert Edge's line also starts experienced, lunch pail-type guys who tend to eat defensive linemen for lunch.

"When they came in as freshmen it was mind blowing," Desert Edge coach Jose Lucero said. "There's not a lot of holes with this group. They like to have fun, but when it's time to work and flip the switch they flip the switch."

Center Max Wilhite looks somewhat menacing, with his size (6-3, 300) and multi-bar face mask.

Not only is he the leader of his group, he's also the brains (4.0 GPA) in Desert Edge's zone scheme.

The 4-year starter can play all five spots on the line and has offers from New Mexico State, Air Force and Northern Arizona University. Another 4-year starter, left guard Tyson Jones, is the school's multi-sport star.

He's got a chance to break the longest held Arizona high school state track and field record, the shot put, in the spring.

"Tyson is a happy-go-lucky kid with a mean streak," Lucero said.

He's also got the longest arms on the team, and the 6-5, 300-pound force moves well, Lucero added.

Jones might continue playing football and throw the shot put at the next level. The most explosive of Desert Edge's linemen is the third 4-year starter, Austin Young (6-4, 335), who can squat 550 pounds.

Young also is one of the more athletic right tackles in Arizona, and, like Jones, has a mean streak, which has become his calling card. Senior right guard Connor McGee is no slouch either and is a three-year starter.

A couple of players were competing for the left tackle spot before the start of the season, but Lucero already knows where his offensive line ranks.

"I've been doing this for 11 years now, and this is the most talented group I've ever coached," Lucero said.

Lucero's big boys will see how they match up against Deer Valley and Centennial up close when they play them in the 2017 regular season.

DEER VALLEY

Coach Eric Bolus' history with Deer Valley's football program goes as far back as 1985.

To Bolus, this year's Deer Valley's senior class stand out like no other.

Brandon McCrea (75) and Joey Ramos (76) are leaders up front for the Deer Valley Skyhawks (photo by Mark Jones of maxpreps.com).

"The tone these seniors set is unlike anything I've seen," Bolus said.

Three of those senior character establishers are on Bolus' o-line, Ramos, Xavier Robinson-Thomas and Brandon McCrea.

There's no argument that Ramos is Deer Valley's chief. He holds 11 of the 22 college offers that the offensive linemen of Deer Valley, Desert Edge and Centennial have earned.

He might not have a badge, but Ramos is also his team's social media top-cop. He'll ask a teammate to delete something if it misrepresents Deer Valley on social media.

On the field, policing takes a different form for Ramos against opponents.

"Joey is just nasty, but he'll kick the snot out of somebody and then pick them up," Bolus said.

Bolus said that Robinson-Thomas is learning to exhibit more of an edgier attitude while plowing through defenders.

But Robinson-Thomas, a right tackle, doesn't need coaxing to pull, which he does exceptionally well and a lot in Deer Valley's run game. Last year's right tackle, McCrea, is moving to center this year because he can fill the void that was left by a senior last year.

"McCrea has done a great job in the weight room," Bolus said. "He's got a chip on his shoulder because he doesn't get the attention Xavier and Joey get."

But this season might be different for McCrea.

He's part of an offensive line, along with with Desert Edge's and Centennial's, that are already sending temblors before the season even starts.

Rock-Solid Foundation Helping Enis Roll

By Jose Garcia
azpreps365.com

Rocks were added to the desert landscaping of Solomon Enis' home in north Phoenix, but the real rocks of the North Canyon High's football star are inside his home.

A young Solomon Enis and his grandfather, George Sigmond (photo courtesy of the Marrero family)

Enis' father, Curtis, also plays a, albeit distant, role in his son's life. After an All-American career at Penn State as a running back, Curtis' brief professional career was curtailed by knee injuries.

Curtis often gets mentioned in recruiting news about his son, but Enis was raised by the very committed Tiffanie, Marlon and the Sigmonds. Marlon and his own two sons, Estefon and Dione, and Tiffanie's sons, Enis and Samson, don't use 'step' next to parents, brothers and sons.

The first impression of Enis is that he's shy. There was a time, you might not believe this, says his mom, that Enis couldn't stay quiet for at least five minutes even if you paid him.

Enis, however, won't hide his drive, intelligence and big heart behind his now reserve, level-headed personality. Asked if he had a Plan B if football doesn't pan out, his response was as quick as some of his touchdown bursts.

"My Plan A is to get my business management degree and open up my own sneaker boutique, sell street wear fashion and have my brothers work with me," he said. "Plan B is the NFL."

Football is his passion but so are sneakers.

Enis began painting sneakers last year first for himself and then for his friends, who pay him to paint designs on their shoes.

"It's a stress relieve," Enis said.

He loses track of time as he's brushing away from his other

canvas, a football field, where defenders sometimes look like blotches on the field after they fall chasing Enis.

Besides his once very talkative days, it's also hard to picture that the tall and slender Enis was once a lineman. The standout wideout is also a great blocker partly due to his days pulling and blocking for players, including Estefon, in Pop Warner.

"To this day I still miss playing with Solomon," said Estefon, who along with Dione will run for Grand Canyon University this year. "He was a leader and made everybody better."

Enis and Estefon didn't plan to, but they became the cupids of their parents.

Marlon handed Enis a Gatorade when Enis said his mom failed to bring him water to a Pop Warner game in 2008. Tiffanie to this day disagrees that she forgot, but she's the alpha in the house, so her first-meeting version trumps Marlon's, said Marlon laughing.

Marlon, 50, is a disabled Marine veteran who injured his knees during a mission in northern Iraq, and he also survived colon cancer twice. He worked as a drug enforcement agent after his service in the military and is currently training police officers and military in hand-to-hand tactics.

Tiffanie was a single parent to Enis and his 14-months older brother, Samson, for about seven years before the disciplinarian and sociable forces of Marlon and Tiffanie met. After Tiffanie and Curtis separated, she and her two sons moved in with her heroes, George and Barbara, affectionately known as Grami and Grampi to the grandkids.

Enis' male role model was George, who was barrel-chested and blue-eyed, a Grizzly Adams-type with softball sized calves.

"George could build a house with a Q-tip and a toothpick," Barbara said matter-of-factly.

But the biggest accomplishment of the 57-year-old George will be his family.

"He (George) was such a great man," Tiffanie said. "The

impact he had on Solomon and Samson was just phenomenal. He was the boys' rock. He was everything to them."

Enis spent a lot of time outdoors with George, fixing trucks, at archery events and had a lot of heart-to-heart conversations along with another "protector" of Enis, Samson.

"Grampi taught me about being a young man and being respectful," Enis said. "To do good things and being a good person in life and to learn how to depend on myself."

The week after George died of lymphoma in September, Enis dedicated the next game to his grandfather.

In that game, the heavy-hearted Enis produced single-game career highs in receiving yards (237) and touchdowns (4) and rushed five times for 104 yards and a touchdown to boot.

"Grampi was my guy, my dude, my best friend all in one guy," Enis said. "He was my dad. He raised me."

Barbara is one of Enis' biggest cheerleaders.

She attended the Nike Opening in Oregon this summer, where the best-of-the-best are invited to train for four days. When he was in middle school, the very driven Enis told Marlon that he'd earn an invite to The Opening for high school football players.

During Enis' 7 on 7 championship game in Oregon, his family could hear Barbara's loud cheers during the live broadcast on Facebook Live.

"I am proud of all my grandsons," she said.

Marlon often jokes with Tiffanie that he married her because of her parents.

George and Barbara doted on Marlon's kids, Estefon and Dionea, just like they did Enis and Samson.

When Marlon had to travel to the Tucson VA hospital for cancer treatment, Tiffanie traveled back and forth daily to the Valley while helping taking care of Marlon and their four sons.

"It was amazing how strong she was and how she handled the family while making the trips," Marlon said. "I fell in love with her after we became friends. She parents the same way I do with a lot of discipline. I felt so bad when I got cancer the second time because it happened when we were together."

But cancer wasn't going to keep Tiffanie away.

"God gave him (Marlon) to me to be honest," Tiffanie said.

"I needed a good man, and he came to me. We battled together. We are good team for sure."

Marlon stepped in during one of Tiffanie's toughest moments. While living on her own with her two sons, she was at one point working three jobs, but then her hours were cut just as her car broke down. She was down to one paying job.

It was around that time that Tiffanie met Marlon, whose faith and family are his foundations.

The two soldiered on together, keeping their united front moving forward.

Tiffanie is now a branch manager escrow officer.

"Words can't describe how much I appreciate my mom," Enis said. "She's my rock, my No. 1. No one can come over her. Samson and I just love her to death."

All of the sacrifices that Tiffanie and Marlon made are being rewarded.

Another hard worker, Enis, is up to 16 college offers. One of those offers is from Penn State, Enis' father's alma mater.

The two started re-communicating just before Enis enrolled in high school.

"We got it (relationship) going in the right direction," Enis said. "He (Curtis) had to fix some things that happened after the NFL."

Tiffanie doesn't keep her sons from patching up their relationship with their father.

She knows her sons' intentions are good.

"I'm in love with all of my kids," she said. "Their souls are good. That's why they make it easy to parent them."

Enis is targeting for this season another postseason berth for North Canyon and a 2,000-yard receiving season.

But his ultimate goal, now that he has the option to play at the next level, is to help his teammates get noticed.

One of the shoe designs painted by Enis (photo courtesy of Solomon Enis)

"I want to do everything I can for them," the 17-year-old said.

Enis said he'll cut his college list to a top-5 just before the season starts.

What he's looking for in a school are strong academic programs, to compete as a freshman, good relationships with his coaches and the feel of a second home. A tip for coaches that are recruiting him.

Don't tell Tiffanie that they'll help develop Enis into a better man.

"You don't need to make him a better man," Tiffanie said. "I and my family did that. What they need to is help him further with what he needs. With his heart and his soul, you are getting a really good person."

5A Conference Football Preseason Rankings

Centennial should contend for the 5A title in 2017 (photo by Paul Campbell of maxpreps.com).

1. CENTENNIAL: The Coyotes advanced to their fifth title game in the seven years this decade last season falling in a defensive struggle to Williams Field. Coach Richard Taylor returns a formidable ground attack with veterans up front and damage inflictors Zidane Thomas and Alex Escobar in the backfield. Thomas will submit a hardship appeal to be eligible for the entire season after briefly transferring out of state and returning. Thomas is easily one of the top three backs in the state. Quarterback Ruben Beltran also returns lending a steady hand to the offense. Defense is the area of concern at the outset, but history has shown the Coyotes can rebuild a unit quickly (they lost eight starters). The heaviest portion of their schedule is the first half featuring games with Desert Edge, 6A Pinnacle and Westview and rounding out with Florida power St. Thomas Aquinas (Fort Lauderdale, FL).

2. WILLIAMS FIELD: It will be a challenge for the Black Hawks to match last year's finish as state champion -- an unbeaten one at that. Similar to Centennial, Williams Field has gone deep in postseason often this decade with five semifinal appearances or better, including three title game visits. Also

like Centennial, the Black Hawks are more experienced on offense than defense coming back. The offense is powered by junior quarterback Zach Shepherd, who turned in an outstanding debut varsity campaign. Shepherd breaks in essentially an entirely new set of receivers with the graduation loss of a pair of 1,000-yard catchers in Justis Stokes and Max Fine. That won't be easy. Last year's defense yielded just 11 points a game and was outstanding in the game that mattered most limiting Centennial to six points in the final. With a lot of routs in 2016 coach Steve Campbell's staff was able to lend considerable playing time on defense to those beyond opening-game starters.

3. CIENEGA: Coach Pat Nugent inherited a playoff-proud program in 2015 when he took over for Nemer Hassey. That year was a tough one with the Bobcats finishing 4-6 and no playoffs. The comeback was on last year with a 12-1 mark ending with a semifinal loss to Centennial. The addition last season of junior quarterback Jamarye Joiner had a lot to do with the marked improvement. Joiner supplied just short of 2,500 yards rushing and passing and 30 TDs. Joiner is back for another bid at a title as are half of last year's first-teamers. Cienega will be able to score with anyone as it did last year with skill positions its primary strength. It's defense that must

make strides, particularly when the competition ramps up in postseason. Cienega gave up 108 points last year in its three playoff games (36 ppg). The Bobcats allowed less than half that total in their other 10 contests.

4. QUEEN CREEK: It hasn't mattered the division or conference the Bulldogs play in this decade. It's semifinals or better the last seven years with two championship appearances and one championship (2012). Half of the starters from last year return and coach Travis Schureman is anxious to see a promising junior class fill in with some senior leaders. Junior quarterback Devin Larsen acquitted himself well as the starter last year with 2,500 yards passing and overall efficient work. Players back on defense like Dante Coleman, Addison Udall and Copper Wetch defense combined 17 sacks and a slew of tackles. The bug-a-boo for Queen Creek jumping from conference to conference has been Saguaro, Williams Field and in order to win 5A besting the likes of Centennial. Queen Creek lost twice to Williams Field last year and battles them again as they compete in the same region for the fifth time in the last six years.

5. DESERT EDGE: New head coach Jose Lucero steps in to fill the shoes of Rich Wellbrock after a one-year stint as head coach at North Canyon. Lucero, a former offensive coordinator under Wellbrock for six seasons, has a good nucleus to work with in his debut season. A veteran, massive offensive line led by seniors Max Wilhite, Tyson Jones and Austin Young are the focal point. It doesn't hurt having senior running back Rocky Perez with two 1,000-yard rushing seasons behind him. The Scorpions will introduce a new quarterback after the summer competition ends to follow prolific three-year starter Tehran Thomas. An advantage on paper for the Scorpions is battle-tested defenders returning led by linebacker Milton Rodgers and lineman Nasir Sims. Desert Edge's defense was just behind Centennial and Williams Field in fewest points allowed in the conference.

6. NOTRE DAME PREP: The Saints had to sit on the sidelines when November arrived last year despite an 8-2 record due to the probation brought on by violating AIA rules. They also were banned from conducting spring football so the multitude of returning players are anxious to get after it. If they can attain similar success -- and that possibility is high -- they should be eligible this time around. New coach George Prelock, who has toiled as the program's freshman coach prior, has a rapport with the senior-rich roster. The offense features key skill position returnees Cole Fisher at running back and Jordan Stengel and Blake Storey at receiver. Quarterback Kylan Weisser got in enough action to know the feel of varsity play. There is experience on defense up front, at linebacker and hugely in the secondary. Lineman Kyle White, linebacker Vince Elrod and safety-linebacker Joey Jaquint enjoyed productive time last year.

7. MARANA: The Tigers were unbeaten in region play in win-

ning the Sonoran Region crown. They bowed out of postseason with a quarterfinal loss to eventual champ Williams Field. The school hadn't been to a playoff game since 2007 so excitement is on the rise. On paper they have a clear advantage to repeating as region champs with 14 starting spots back. Marana returns seasoned quarterback Trenton Bourguet, running back Zach Roberts and top receiver by receptions Tariq Jordan. Roberts only played the first three games of the season and averaged 112 yards rushing per contest. The Tigers averaged 39 points a game last year. Leading the defense are first-team all-region lineman John Morgan and first-team all-region defensive back Anthony Valencia.

8. CHAPARRAL: Will the young talent (1 senior on offense) jell and adjust quickly to some of the new coaching leadership? Will QB transfer Jack Miller play immediately? Is the entire new defense ready? What isn't being questioned is the depth at RB. Ohio Soph. RB Darvon Hubbard (5 D-I offers) moved in this week. Atlanta RB transfer Josh Edwards (5-10, 200) and returning back Marqui Johnson, Chap's best DB, also will be difficult to stop. No surprise that Soph. Tommy Christakos is already the team's No. 1 WR. One of the new coaches on staff is ex-Chaparral, U of A WR DaVonte' Neal.

9. VERRADO: The Vipers qualified for the playoffs for the third consecutive year in 2016. Their season ended with a first-round loss to Desert Edge. They enter the new season with interim coach Tom Ward taking over for Derek Wahlstrom. Ward has run Verrado's defense the last couple of seasons. Ward has more experience to work with on offense led by versatile running back JaTai Jenkins and his 1,100-plus yards rushing and receiving last year. A threat in the passing game is wide out Marcus Rivera, the Vipers leading receiver last year. Defense has been solid under Ward's tutelage. Verrado has progressively allowed fewer points each of the last four seasons. The Vipers gave up just 17 points a game in 2016. The leader coming back is linebacker Zach Juernigan. More new faces than old ones will dot the lineup so Verrado seeks rapid maturity with speed and quickness making up for a lack of size.

10. LIBERTY: The Lions finished up a playoff season (7-4) with back-to-back losses. Both were to conference runner-up Centennial by similar margins. The Lions are just two seasons removed from a runner-up finish, Liberty will rely on an experienced defense, especially its secondary and to a lesser extent up front. Junior safety Ryan Puskas leads the secondary and senior John Clark at the line of scrimmage. The defense must play well as the offense will be quite green to start with breaking in the line and most skill positions. The schedule's toughest games are neatly spaced with Verrado (fourth game), Chaparral (seventh) and Centennial (10th). That affords the offense time to meld and coach Mark Smith and his staff time to assess under fire what they can expect.

Strengths of offense during summer: We have a lot of experience back on offense at both the offensive line and skill positions. The quarterback position is open and will be a competition between Alec Smith and Angel Nelson. Both offer different skill sets and can both be used in the same game. They will have a surrounding cast of experience which will help the transition.

Strengths of defense during summer: Our team speed on defense is a plus. The defense overall will be younger than the offense but some really good pieces on the defensive side to work with and it's our job as coaches to put that puzzle together. Can be an exciting group.

Team's biggest question marks heading into summer: Quarterback and depth overall. We need to focus on building depth.

Potential breakout players: All of our key returning players have an opportunity to break out this year. They all played well this past season and got plenty of snaps. I think it would be unfair at this point to identify just a couple because they are all working extremely hard developing their bodies in the weight room, leading the team and mastering their craft/position.

Strengths of defense during summer: The kids are quick learners, work hard, and hustle. We have a good mix of new talent and upperclassmen leadership which will enable us to play fast.

Strengths of your offense heading into the summer? Having our best lineman (Cristian Williams) and QB (Jalil Mitchell) returning for another season is a huge bonus for our team. They gained a great deal of experience from last season and hopefully that will carry over into the season. We also have a lot of young guys ready to step in and help on the line and at the skill positions

Strengths of your defense heading into the summer: We have a few key starters Mitchell, Hill and Donis that will help solidify the back seven of our defense. We also have some kids returning at the safety and corner positions who learned a lot from last season and should be able to make our secondary one of the strongest position groups on our team

Team's biggest question marks heading into the summer? Depth is going to be a major question as we move into the summer. Outside of the few returners we have we will be very young and will have a lot of learning to do to get caught up with the speed of the game.

Potential to be your breakout player(s) in 2017: Junior quarterback JJ Player has a chance to have a huge year for us. He will be able to help us out all over the field, and despite our depth concerns, he provides us depth at QB which is the most important position.

Which of your player(s) unexpectedly blossomed into starters over the past 2-3 years? Mason Suarez, Gabriel Still,

and Luis Rivas have all worked hard to find themselves a starting position over the last couple of years. Gabe really came on last summer and then had an injury early on, that slowed him down a little, but he came on strong again as the season ended. Mason came out of nowhere to step in and start for us on the offensive line. We had a kid go down, and we had to throw Mason into the fire, and he stepped up in a huge way. Luis just works hard and has a relentless motor that we could not keep off the field. He is a little undersized for his defensive end position but he's as tough as they come.

Any unique human interest stories about your players, coaches or program? We had a group of about 12 kids who went and volunteered at the Special Olympic Games at Raymond Kellis High School in May 5. It was a very good experience for those kids and they were really motivated by the kids who were participating in the games.

Strengths of offense during summer: The continuity of the returners knowing how to execute our scheme.

Strengths of defense during summer: Our team is very enthusiastic to improve on our strengths from last season.

Team's biggest question marks heading into summer: Our underclassmen have to grow up very quickly for us to be successful.

Potential breakout player(s): Sophomore RB-LB Rashaad Henderson and sophomore TE-DE Thor Martinez.

Which of your player(s) unexpectedly blossomed into starters over the past 2-3 years? Matthew Abrams

Poston Butte

Head coach: Dain Thompson

2016 record: 4-6

Returning starters on offense: 9

Returning starters on defense: 8

Returning key players and stats: Sr. LB-RB Tyler Thompson (5-9, 172, 483 yards rushing, 6 TDs); Sr. TE Carter White (5-11, 212, RB last year with 639 yards rushing, 8 TDs); Jr. DL Thomas Gaitan (5-10, 270);

Strengths of offense during summer: The strength for 2017 will be balance. New offensive coordinator Chris Semore will be the play-caller as the Broncos change from a run-only offense to a less predictable and more balanced attack. Multiple players with significant varsity experience will be key in making this a smooth transition.

Strengths of defense during summer: Moving offensive starters Gabe Cude and Gaitan to defense should provide some strength and talent to the front line of an already very experienced defense. Attitude will define this defense.

Team's biggest question marks heading into summer: How quickly can the younger players move into important roles with this senior-dominant team?

Potential breakout players: I expect this team to have many players step up at different times. Last year we had six different players rush for over 100 yards in a game. They all return. Returning quarterback Connor McDonald has experienced targets all around him and a run-pass, balanced attack should give a number of players the chance to make plays.

Jamarye Joiner Is the Top Southern AZ Player

Cienega QB Jamarye Joiner (photo by Andy Morales of azpreps365.com)

By Andy Morales
azpreps365.com

Cienega standout Jamarye Joiner verbally committed to play for the University of Arizona last September and the standout quarterback went on to throw for 1,713 yards and 17 touchdowns to help lead the Bobcats to a 12-1 record, a No. 1 ranking in the 5A Conference and a semifinal finish in the state playoffs.

Joiner also rushed for 762 yards and he collected 13 more TDs on the ground, giving the Southern Arizona Player of the Year almost 200 yards a game in offense. Joiner shared QB duties with Tyler Hammons (627 yards passing and nine TDs) last year as he watched from the sidelines in several games due to a 47-16 average margin of victory in the regular season.

Prior to transferring to Cienega as a sophomore, Joiner earned Southern Arizona Freshman of the Year honors at Salpointe and he was also named to the MaxPreps Freshman All-American Team as well as earning a spot at the Adidas Freshman All-American Bowl.

Joiner sat out his sophomore year and his presence on the Cienega roster in his junior season made it a no-

brainer to include the Bobcats in our preseason Top-10 poll last year.

Jamarye Joiner made a visit to the University of Arizona on June 5 of 2016 and he was officially offered by the Wildcats that August.

"We are very excited and feel very blessed that he has chosen Arizona," his mother, Christina Pena, said.

Joiner has turned a few heads by openly talking to and about other programs but he offered this when he committed to Arizona:

"I would like to thank God most importantly. Also, my coaches and my mom for helping me through my decision. I am very blessed to say that I will be furthering my education and football career at the University of Arizona."

ASU offered Joiner a scholarship this past June after the standout led Cienega to a championship over Gilbert in ASU's passing league tournament, followed by a visit to the camp offered by the program. Joiner also led the Bobcats to a championship in the Pima Passing League tournament.

Unlike typical quarterbacks, Joiner has welcomed the term "athlete" when people discuss his abilities, and with good reason. Joiner took second place in the 110-meter hurdles in the Division II state meet and he earned another second place finish in the long jump. His performances at the state meet set new track and field records for Cienega.

Further, Joiner was a receiver on the National-champion Tucson Turf 7-on-7 team this summer while, at the same time leading the Bobcat 7-on-7 team and training with the Cienega football team.

His ability to move, throw and read defenses has caused other Division I programs to take notice like Oregon, Utah and Nebraska.

Despite his commitment and his other options, some outlets have been slow to pick up on his abilities. His selection as a top "Surprise Performer" at the Los Angeles Nike Opening Regional Camp in March was a head-scratcher for instance.

Running backs Dakota Poe (710 yards rushing) and Aaron Sauls (693) have graduated along with receiver Breabon Bolton (1,076 yards) but Terrell Hayward (1,283 all-purpose yards) returns for his junior year along with linebacker Steven Harshman (89 tackles).

The Bobcats open up at Marana on Aug. 25. There will be ten teams on the Bobcats schedule looking for revenge with a rematch with Salpointe scheduled for Sept. 28. While all games are important, that one could decide the mythical Southern Arizona championship.

NOTE: His uncle, Tamoni Joiner, gained 1,040 yards in his senior season with Amphitheater in 1995, a year after reaching 1,000 yards as a junior. The Southern Arizona Player of the Year went on to play defense for Oregon.

Trio of Standouts Are Set to Lead Salpointe

By Andy Morales
azpreps365.com

Ranked second in our 4A Conference preseason poll, Salpointe Catholic returns from a 10-3 season loaded and ready to improve upon an already incredible semifinal finish. The quarterback position is the remaining question for the Lancers but there are a lot of other answers to be found on the newly-installed turf at Ed Doherty Stadium.

The Lancers went 14-0 and won the Division II state championship in 2013. It was a team built on a balanced attack with QB Andrew Cota throwing for 2,748 yards to go along with his 657 yards rushing. Jay Williams added 858 yards on the ground, Cameron Denson caught 73 passes for 1,453 yards and Kaelin DeBoskie added 964 receiving yards. Jake Casteel and Taylor Powel combined for 328 tackles. That was a fully-loaded team.

Cota finished his career with 6,635 passing yards, good enough for third best in the history of Southern Arizona. Cota replaced Jordan Scelfo (2,234 passing yards in 2010), Scelfo replaced current San Francisco Giant pitcher Dan Slania and Slania replaced Trevor Eggleston (4,224 career passing yards). In short, the Lancer program was built on a strong QB foundation.

Sammy Muniz replaced Cota and threw for 1,059 yards in 2014 but that was his senior season and 2015 saw the transfer of Jamarye Joiner to Cienega, along with key injuries, and the Lancers finished the season 5-5. Sean Barton took over in his senior year in 2016 and he collected 845 yards but the balanced attack had already shifted to a powerful rushing machine led by sophomore Mario Padilla (2,051 all-purpose yards) and freshman Bijan Robinson (767 APYs).

Padilla's first cousin, Johnny Pena, graduated in 2013 with school records in rushing yards (4,681) and rushing touchdowns (61) and Padilla hopes to break both records but it will be a huge task with 1,516 career rushing yards and 18 TDs to his credit but, if anyone can do it, it would be Padilla.

"I really love this team," Padilla said. "I really feel this team has the potential to be so much stronger this year and that includes the players and the coaching staff."

Leading the coaching staff is longtime head coach Dennis Bene. Bene (149-40) played QB at Salpointe (1980-84) and he took over the coaching job in 2001. Bene still holds the school record for passing yards in a game (425) and he played under legendary coach Ed Doherty.

"I told coach that everyone on social media is talking about the Mountain View game and people are asking about Cienega and Saguaro but he told us to be grounded and prepare for St. Mary's," Padilla added.

Salpointe will host St. Mary's in the "Ed Doherty Classic" on Aug. 18. It will be the opening game for both squads. Doherty coached the Knights to two state championships and he led the Lancers to the 1981 state final and, as mentioned before, he coached Bene.

"This game is like a state championship to coach and we respect that, Padilla said. "We know that game means a lot to coach and to the school and that's the only game we are looking at."

Robinson has already been offered by Arizona, Washington, Utah and ASU. The sophomore to be is the grandson of all-state

Lancer RB Mario Padilla had 2,051 all-purpose yards in 2016 (photo by Andy Morales of azpreps365.com).

athlete Cleo Robinson and his great-uncle, Paul Robinson, was the AFL Rookie of the Year in 1968 after finishing his career at Arizona.

Already well-known by those who follow youth football, Bijan Robinson came in as a "veteran" of sorts when he first suited up at Salpointe. His abilities were only a secret to the media but the media has caught on and his MVP trophy from the Rivals 3 Stripe Camp in April has only made the spotlight brighter.

"I'm going to keep on doing what I have been doing," Robinson said during a break at the Rich Rodriguez Passing Tournament this summer. "We expect bigger things this year."

Offensive lineman Matteo Mele committed to play for Washington and he had tons of choices. Literally. Always the master, Bene shifted the tight end to his offensive line (where he would be more suited for college) and a dozen or D-I offers came rolling in.

Standing 6-foot-6 and weighing 277 pounds, Mele already had the size to draw attention but his mobility (as displayed by his performance as a tight end in 2016) set him apart from the typical lineman. He can block, he can catch, he understands offensive and defensive schemes and he is highly coachable. The Wildcat and Sun Devil faithful lost a big one.

"I am shutting down my recruitment and am 100% committed to the University of Washington," Mele wrote in a Twitter announcement.

COLLEGE PREPS REPORT POWERED BY AZPREPS365.COM

4A Conference Football Preseason Rankings

Saguaro finished off last year with another state crown (photo by Mark Jones of maxpreps.com).

By Andy Morales
azpreps365.com

1. Saguaro: What can be written about Saguaro that hasn't been said before? The Sabercats won their fourth championship in a row last year, ninth since 2006 and tenth overall. The championships came in four different classifications and a runner-up finish in 1995 came in 5A competition.

A playoff contender every year since 2004, the only "down years" were a semifinal finish in 2004, a first-round appearance in 2005, a semifinal finish in 2009 and a quarterfinal finish in 2012. Technically, if one erased the 4-6 2003 campaign, then one would find about five more good years prior. In short, the Sabercats are not a recent phenomenon.

Often the scorn of coaches and fans of other programs, the Sabercats have been shifted to several classifications with the same results. Jason Mohns has gone 61-7 since he took over in 2012. His last loss came on September 4 of 2015 to Pinnacle at home. Since then, he has gone 25-0 with no victory coming closer than eight points.

Is there another state championship in the books for his year?

According to Mohns, the program returns six starters on offense

and only three on defense. That may be cause for concern for a lot of programs but Saguaro has the ability to reload. By his own account, Saguaro will be, "Returning All-State QB (Max Massingale) surrounded by a deep and experienced group of skill players."

Massingale threw for 2,291 yards last year for 30 touchdowns and he ran for 1,012 yards more with another 31 TDs added on. His 3,303 total yards is roughly 52% of the team's 6,390 yards of offense. Sure, the Sabercats lose 2,189 yards gained by RB Stone Matthews but the program has shown they can overcome one player as they did when Christian Kirk graduated and took 2,927 yards of offense with him in 2014 and Kare Lyles graduated with 3,625 yards a year later.

Simply, Saguaro has reloaded and the Sabercats are an easy top pick.

NOTE: Saguaro's new turf field will be named after former equipment manager Mike "Tug" Garcia who passed away unexpectedly back in 2013.

No. 2 Salpointe: The Lancers finished 10-3 last year, ultimately falling to Saguaro 24-3 in the semifinals. Salpointe handled state-runner up Catalina Foothills 34-7 in the regular season and Dennis Bene brings back Mario Padilla, Matteo Mele and Bijan Robinson. A clear choice for the second spot. The Lancers lost to 6A Tucson

(14-3) and 5A Cienega (51-14) at home last year and the team pulled off a 10-6 win over regional rival Canyon del Oro in the first round of the playoffs, one week after blasting the Dorados 31-14. Tucson and Cienega are on the schedule again and CDO is once again listed as the last game of the regular season. That game could decide the region title.

No. 3 Higley: Higley lost 62-37 to Catalina Foothills in the other semifinal game. Senior running back Draycen Hall collected 2,298 yards rushing in 2016 along with ,908 all-purpose yards and 40 touchdowns. The Knights travel to Saguaro on Sept. 8. The Saber-cats won 49-15 at Higley last year. All eyes will be on this game to see how much of a difference year came make.

No. 4 Sunrise Mountain: Lost a back-and-forth battle with Catalina Foothills (52-49) in a tough quarterfinal match for both squads. This shows how important seeding matchups are come playoff time. The Mustangs are the fourth team with a legitimate shot at the title. The Mustangs were another team bitten by the Saguaro Sabercats last year. The 34-6 loss at home spoiled an undefeated regular season. It doesn't get any easier this year because Saguaro plays host on Sept. 22.

No. 5 Cactus: The Cobras gave Higley a scare in another huge quarterfinal game last year. Senior quarterback Mahal Lee (1,786 yards passing and 23 touchdowns) and Sr. running back Damaria Norris (2,209 yards rushing and 28 TDs) will give cactus a boost. The Cobras started out 1-2 last year but Marcos de Niza and Min-gus will pay a visit to Cactus this year. Odds are better for a much better start for the Cobras.

No. 6 Peoria: The Panthers finished in the quarterfinals last year and senior quarterback Nate Dobson (2,074 yards passing, 850 yards rushing and 30 combined touchdowns) gives Peoria a shot.

The third team from the West Valley Region, the Panthers played Cactus close (35-28) at home but also had huge losses to non-region opponent Marcos de Niza and West Valley champion Sunrise Mountain.

No. 7 Bradshaw Mountain: The Bears won the Grand Canyon Region last year and the team should be in playoff position again this year with half the starters returning under first-year coach Chuck Moller. The Bears gave up a lot of points last year, including a 70-49 loss at Cactus to start the season off. Giving up 27 points a game is difficult to overcome.

No. 8 Marcos de Niza: The Padres lost Naz Greer and his 9,953 career passing yards to graduation but legendary head coach Paul Moro should have things running smoothly again. Another difficult non-region schedule with Saguaro, Cactus, Peoria, Cactus Shadows and Bradshaw Mountain ahead. The Padres won four of those last year.

No. 9 Catalina Foothills: Jeff Scurran has taken three 0-10 teams to a state-final appearance and he should have a bit more magic in his back pocket with the loss of Rhett Rodriguez, his top four running backs, his top seven receivers and his top six defenders. The Falcons host Saguaro on Aug. 18. But the name of the game is region play and that doesn't start until Spt. 28. That's almost two months of preparation for Scurran.

No. 10 Canyon del Oro: The Dorados are back on the scene with senior running back Eli Carey (1,005 yards rushing) leading the way. The younger brother of Ka'Deem Carey, Eli looks to make a name for himself this year. The Dorados look to compete for the region title this year but just as easily be on the other side of the playoffs. The team will have to forget about Salpointe and take care of business early.

Strengths of offense during summer: Due to unfortunate circumstances last season, we were forced to play a lot of young guys up front. These young men struggled but got better, and all but one starting lineman is returning. We also have a young but talented QB with quite a few weapons that should be able to help stretch the field.

Team's biggest question marks heading into summer: We have many positions to fill. We lost some key pieces so it will be important for us to get quality depth in a lot of our positions.

Potential breakout players: Tonga'uiha, Maddox and Clayton should position themselves to have a pretty good season for us.

2016 record: 6-4

Returning starters on offense: Eight.

Returning starters on defense: Eight.

Returning key players and stats: RB/WR/DB Ruben Rivera IV (6-2, 190, 1,323 all-purpose yards in 2016); LB/RB Julio Carino (5-11, 190, 115 tackles); LB/TE Alonzo Saldivar (6-2, 230, 53 tackles); QB/DB Dominick Carrillo (6-0, 180); OL/DL Flavio Gonzalez (6-5, 270); DE/FB Omar Ibanez (6-1, 200); OL/DL Damon Yrigolla (6-0, 250).

Strengths of offense during summer: Running game and experience. Many of our top players were sophomores and juniors last year. Near the end of the season we also brought up a few guys from the JV team and gave them experience as well.

Team's biggest question marks heading into summer: Who will take over the QB starting position. Carrillo played a few games at QB and started a couple however Ricardo Medina started the last two games of the season due to injury and showed promise. The next will be my OL play due to the departures of our All-Region performers from the last couple of seasons.

Potential breakout players: Rivera is our "do all" player. In his first game last year, he rushed for 208 yards off of 10 carries. Carrillo has big play capability as a dual threat QB and WR, he returned a kickoff 80+ yards last season and also had a 60 yard touchdown vs. Salpointe. Carino lead the team in tackles last season with 115 total tackles and he was only a sophomore.

Strengths of offense during summer: Our strength is in our skill positions. We have a lot of talented athletes that we can shuffle around to all our various positions. We are also blessed with some kids up front who are big and have bought into the weight room this offseason.

Team's biggest question marks heading into summer: Our QB position. We have two guys that will continue to compete for the job through the summer. Each guy has his own style which

are both useful so we will incorporate them both into the offense as we see fit.

Potential breakout players: Jr. RB/OLB Cameron Ott has a lot of potential. Mike and Matt Bathauer Have had a great offseason in the weight room. Navarte will have a great season (Last year was his first year playing football). Juelfs is our leader and I expect him to be around the ball every play and Paul Giglio should have a great year for us in our offensive and defensive systems. Unique human interest story: Navarte, our defensive end, is in his second year of playing football. Last year, he had a great year without knowing much about football, and this offseason he has put in a lot of work. Marco is deaf and wears a cochlear implant under his helmet. He is a great kid and a hard worker who does not find excuses for himself. Strengths of offense during summer: Offensive line is where it all starts, we have some quality linemen good size and athletic. We have two solid running backs in Reeves and Jr. TJ Murphy. Duncan is adjusting to new system and is embracing the change and is a great fit for what we are trying to do. We will be rotating receivers but right now we are looking for big plays from Jr. Julian Arias.

Team's biggest question marks heading into summer: How will the team respond to the new, first-year coach. Will they buy in? Will the coach make too many first year mistakes?

Unique human interest story: We have begun our selfless events! Our team will average one selfless event a month from now until I am no longer the head coach. We started by working the Special Olympics Summer Games on May 3rd. We took 80 kids (football players and cheerleaders), and they did a GREAT job of working with the athletes. Higley Multi-Purpose Threat Hall Primed for Senior Season State's Reigning Gatorade POY Thirsts for More

Higley standout running back Draycen Hall (photo by Andy Silvas @photosilvas.com)

By Les Willsey
azpreps365.com

Higley's Draycen Hall got a glimpse of varsity football action as a freshman. It was a kickoff return for short yardage in the Knights' 2014 playoff loss vs. Tempe High. The result was Hall's amazement at the speed of the game at that level.

"He came to the sideline after that and his eyes were as big as saucers," Higley coach Eddy Zubey said.

Hall absorbed a taste of what freshman opponents often experienced defending him week to week with his speed of the game. It was Hall's effort as a freshman that earned him a playoff promotion. Zubey recalled a moment that exemplified the promise and prowess of Hall.

"Our freshman team was 8-0 his freshman year and one week we decided initially to hold Draycen out to play him in a JV game later," Zubey said. "The freshman team was at Cactus Shadows. He rode over with them not planning on playing. We thought we could win without him."

At halftime of the game, Cactus Shadows had shocked Higley and played them to a standstill for 24 minutes. A cross-town phone call ensued to Zubey.

"I was at home and the game was close at half," Zubey said. "Our freshman coach (Don Rosenberger) told me Draycen brought his uniform with him. He asked me if I wanted to let Draycen play the second half? It was a chance for the freshmen to stay undefeated. I said go ahead."

Hall suited up in time for the second half. Scored three touchdowns in the half, accounting for 105 yards rushing and 121 yards receiving. Higley won going away, 52-27.

"I wasn't there," Zubey said. "But I think it was kind of like Superman being in his street clothes and coming out of the phone booth ready to go".

That performance, along with the other six freshman games he played, cemented his status as a player to watch in the future. There has been no disappointment. Only more of the same.

Hall is readying for his swan-song season at Higley. The 5-foot-8, 170-pound senior, is an offensive dynamo serving as running back, slot receiver and return specialist. His performance in 2016 as a junior earned him Gatorade Player of the Year honors

in the state of Arizona last December. Hall amassed 3,908 all-purpose yards -- 2,298 rushing, 641 receiving and 969 returning kickoffs and punts. He scored 41 touchdowns. Those figures more than doubled his sophomore output-- 1,743 yards.

Zubey's first look at Hall didn't come until summer of 2014. He saw a player more fit and in shape than the average incoming freshman.

"When we did 7-on-7 that summer we could tell he could be special," Zubey said. "Nothing changed once we put on the pads for practice."

Hall's family relocated from Marana to Higley so he began his career fresh at Higley. Hall has been excited about the program ever since. He's loved the roles in the offense he's been handed out of design or need.

"I love getting a chance to make a play in the open field," Hall said. "Returning kicks and playing receiver in the slot allows me a lot of opportunities to do that."

In 2015 Hall led Higley in receiving (71 catches for 788 yards) as a slot back. The plan in 2016 was to play him there again, but prior to the season starting the Knights' top rusher from the year before quit. Hall was installed more at running back and he managed the workload seamlessly that increased by 58 touches over the year before.

"After watching him a game or two, we were convinced he could handle the extra load," Zubey said. "He has a work-ethic that's second to none. That's what helps make him as good as he is."

What makes him unique among skill players is a combination of speed (10.75 in the 100) and an uncanny ability to make people miss via whiff or when making contact. He's played football since he was six and only one brand -- tackle. No flag football.

"I've always had the ability to slip out of tackles," Hall said as modestly as he could. "Since I'm a little smaller I can get away from people, especially if they don't wrap up or hit me high. I don't know how it happens. It just comes naturally."

A memorable varsity game from Hall was Higley's playoff opener last year against St. Mary's. On that night he piled up 327 all-purpose yards -- 193 rushing, 64 receiving and 70 on punt returns. He scored four touchdowns. The scores came on runs of 29 and 44 yards, a catch and run of 25 yards and a 43-yard punt return. He had a second punt-return TD called back to begin the final period. Most of Hall's production came in the second and third quarters. He sat the fourth and had a tough time getting going in the first period due to fired up play from St. Mary's defense.

Two weeks later, Higley's season ended. The Knights fell a game short of a trip to the 4A final last year with a sobering loss in the semis to Catalina Foothills. That loss still stings.

"I think it was one of those games we all played a bad game," Hall said. "Not just a couple guys. Everyone. (Catalina Foothills) played well. I think we overlooked them. Their front seven was really good. Hopefully, we learned from that."

Hall is eager to crank it up for his final season. He seems likely to land at one of the service academies -- Air Force, Army or Navy. The work ethic, leadership -- he's been team captain as a sophomore and junior -- stand out. So does a 4.1 GPA. And of course, his ability.

"He's a player," Zubey said. "Being a multi-sport athlete he always gives 100 percent to the sport at hand. He never puts the current sport on cruise control when the next is approaching. He's shown he can take the wear and tear. You don't get many like him."

WHATABURGER. PROUDLY SUPPORTS THE SOLLENBERGER CLASSIC

2017 should be another good year for American Leadership, the defending 3A champs (photo by Jim Willittes of maxpreps.com).

By Andy Morales
azpreps365.com

1. American Leadership: Rich Edwards returns 15 starters from his state championship run and it looks like the Patriots are ready for another run despite losing QB Dallin Edwards (1,578 yards passing and 483 yards rushing), Jeremiah Boyd (1,456 yards rushing), Donovan Hanna (989 yards receiving), Farrell Memmott (97 tackles) and Chandler Way (92 tackles) to graduation.

Matt Neville had 1,098 yards passing last year, Tarrick Workman added 343 yards rushing and Bujan Boyd had 688 yards receiving. There are 34 seniors and 28 juniors on this team and most of those players contributed heavily to the success of 2016 with 60 percent of the offense coming from the sophomore and junior class.

The question for Edwards, however, will be 2018. Can the program maintain this level of play once his first full class of players graduates? But 2018 is for another day....

The Patriots scheduled "Freedom games" against Pusch Ridge, Sabino and Northwest Christian. It's a high-risk schedule but one has to applaud that strength of schedule.

No. 2 Florence: Jared Wood (2,870 yards passing and 37 touchdowns) returns for his senior year and the program returns over 2,000 yards rushing. The two losses suffered by the Gophers came at the hands American Leadership including a loss in the quarterfinal round. An interview with Wood can be found in this edition of the Sollenberger Magazine. The Gophers should be 6-0 heading into their game with American Leadership. It might be the game of the week at that point.

No. 3 Sabino: Ryan McBrayer takes over for legendary head coach Jay Campos and he has to go without University of Arizona commit Drew Dixon. Dixon threw for 1,177 yards, rushed for

901, collected 564 yards receiving and had 330 return yards. Dixon was roughly responsible for half the Sabercat offense and a fourth of the total points. But, just like American Leadership, the Sabercats have a lot more returning – and tradition. We should know pretty quick, with the first four games coming on the road including one at Sahuaro and one at American Leadership.

No. 4 Show Low: A 23-21 loss to Sabino in the semifinal round ended a shot at the program's fifth title. Six-year assistant coach Monte Maxwell takes over for Randy Ricedorff and the team lost QB Rhett Ricedorff (2,787 yards passing and 30 TDs) to graduation but RB Westin Keime, RB James Turner and WR Jake Reid-head all return. The trio accounted for over 2,000 yards of offense.

No. 5 Northwest Christian: A semifinal finish last year has the Crusaders excited and ready for another run. The team will go up American Leadership in Week Four, which just happens to be the week when the 3A Conference starts to take shape. David Inness is waiting for a running back to step up this year. His top four rushers graduated, taking 2,000 yards with them.

No. 6 Snowflake: Despite earning a No. 2 seeding. Snowflake was upset in the first round by No. 15 Payson last year. The team has to replace QB Trey Schneider (1,120 yards passing), RB Zach Solomon (1,178 yards rushing, 99 tackles) and WR JT Tate (716 yards receiving) and the top six defenders including NG Leon LaGrange (101 tackles). The team will have two quarterbacks to choose from and the Lobos should be in good shape once that is in place.

No. 7 Yuma Catholic: Having four starting offensive linemen returning (out of five) is huge no matter what program one is talking about, let alone a power-team like the Shamrocks. The team opens up at St. Mary's followed by a trip to California. A 2-0 start under those circumstances would open some eyes.

No. 8 Pusch Ridge: The Lions always seem to pull something together come playoff time, and this year should be no different, but the Lions will have to accelerate their development because they are set to host American Leadership to open the season. This will be a test for both teams. If the Lions win that game then an eight-win season (at least) might be in the cards and that would translate to a high seed.

No. 9 River Valley: A surprise team comes through every year and the Dust Devils could be that team this year. David Klassen takes over in his first year The Dust Devils could be 3-0 heading into a trip to play Yuma Catholic. Jesse Bravin caught 698 yards from his tight end position. He will be the key.

No. 10 Monument Valley: The Mustangs have put together back-to-back 10-1 seasons. According to head coach Bryan Begay, that kind of success was a first for a reservation school. The Mustangs beat Winslow for the first time in school history last season, the first reservation team to beat them since 2000. "We expect the most and the best," Begay said. "We are going to compete with the best." Winslow will host Monument Valley to open the season.

Strengths of offense during summer: The strength of our offense is our running backs and wide receivers. We will have two good backs that have great vision and really hit the hole quickly. Our wide receivers are all experienced and can make plays. Our quarterback has played in some big games for us and his experience will help. We have the ability to be balanced and keep teams honest.

Team's biggest question marks heading into summer: Our biggest question mark will be whether or not we can stay humble, work hard to earn success. Coming off a championship is new to us and we will need to be ready to take every one's best shot week in and week out.

ing game as well with one of the top QBs in the state coming back (Wood).

Team's biggest question marks heading into summer: Wide receivers and defensive backs.

Potential breakout players: Maignan, Arvonte Neal, Jacob Mejia, Shane Mathis and Sommer.

Strengths of offense during summer: Overall team speed and returning three starting linemen from last year.

Team's biggest question marks heading into summer: We will be entering the season with a new quarterback in junior Brock

Davis, and are excited to see his growth from a good sophomore season and off season and who will take the bulk of carries after losing our RB last year?

Potential breakout players: Davis, Parker, Terry and Bland.

Show Low

Head coach: Monte Maxwell

2016 record: 12-1 (Region Champion)

Returning key players and stats: Sr. RB Westin Keime (5-10, 180, 711 yards rushing in 2016); Jr. RB/FS James Turner (5-7, 140, 571 yards rushing, 81 tackles); Sr. WR Jake Reidhead (5-11, 175, 714 yards receiving);

Unique human interest story: Head coach Randy Ricedorff left the program to start the new Leadership Academy in Gilbert. Longtime assistant coach Monte Maxwell takes over.

Snowflake

Head coach: Kay Solomon

Strengths of offense during summer: Players have a lot of experience in our offensive scheme. Both QB prospects have strong arms and read coverages well. Passing game is well ahead of where we have been coming out of spring ball in years past.

Team's biggest question marks heading into summer: Inexperience is a big factor for this Lobo team, but we made great strides to overcome that during spring football this year. Offensively we will be trying to decide between two new QBs. We will have to decide which fits our system best and/or what adjustments we might need to make to our offense based on our personnel.

Potential breakout players: Jace Merrell, Joey Fish, Garrett Wood, Cody Fox and David Brimhall.

Strengths of offense during summer: Almost all of our skill

players return, QB RB's and WR's, everyone who touches the ball can score.

Team's biggest question marks heading into summer: Depth on the OL and DL, lost key players at Tackle and Defensive End.

Potential breakout players: Fr. Yoann Djassa and So. Nick Reyes.

Unique human interest story: Coaching Icon, former Winslow coach Emil Nasser passed away in December. He was 95 years old, Hall of Fame coach who played at NAU. He made three different coaching halls of fames.

Strengths of offense during summer: We have several key players returning that have been starting since they were sophomores. We have a lot of depth at WR, RB, and QB.

Team's biggest question marks heading into summer: Quarterback. We have two seniors, Derek Weinreich and Garrett Renner, who split time last year at the position. I would feel comfortable with either one as our starter, we'll just have to wait and see who separates themselves as we get closer to the season.

Potential breakout players: Brett Gratz and Dakota Hamby.

Unique human interest story: Fourth coach in four years.

2016 record: 6-5

Returning starters on offense: Six.

Returning key players and stats: Sr. QB/RB Jacob Doyle (6-1, 165, 562 yards passing in 2016); Jr. RB/LB Kele Merideth (5-10, 166, 1,084 yards rushing; Jr. RB/DB Hayden Gracia; OL/DL

Jacob McCabe; OL/DL Kyle Ybanez; FB/LB Jarrard Mountain; WR/DB Christian Penrod; FB/LB Jeremy Tallsalt; OL/DL Levi Telshaw; RB/LB Christian White, TW/DE Cheyenne Richardson.

Strengths of offense during summer: Most of the back field from last year returns, including the QB, Doyle, and two running backs, Merideth and Gracia, with close to 1,000 yards. McCabe and Ybanez are both strong guys at the tackle position.

Cheyenne Richardson will be a force at TE, as a big body with athleticism.

Team's biggest question marks heading into summer: We will have to replace several OL and a very good LB.

Potential breakout players: Gabe Gomez and Nikekilo Kinsel.

Tuba City

Head coach: Rick Benjamin

2016 record: 5-5

Returning key players and stats: Sr. QB Barlow Marquez (713 yards passing in 2016); Sr. Bauer Zach (54 tackles).

Returning starters on defense: Six.

Returning key players and stats: Jr. RB/LB Colbren Nez and Sr. TE Shamon Salway.

Strengths of offense during summer: Offensive experience. We will be running our offense for two years, players will know how to do their jobs, as years before we have been learning new coach schemes and offenses.

Team's biggest question marks heading into summer: We are going to be young and don't really know how we are going to respond.

Potential breakout players: Nez as a backup last year had some good experience and we believe he will have a good season. Salway will be even tougher to stop as TE receiver.

SOUTH REGION

Catalina

Head coach: Joseph Butler

2016 record: 0-10

Returning starters on offense: Seven.

Returning starters on defense: Six.

Returning key players and stats: Jr. DE Jose Lugo (6-3, 245); Jr. DB/WR Leon Hayes (5-9, 185); Jr. ILB/OL Jose Crucella (6-2, 220); Jr. RB/OLB Tra Daniels (6-0, 190); Jr. WR/S Phillippe Kijana (6-3, 180); Sr. WR/DB/K Clemente Quintero (6-1, 175).

Strengths of offense during summer: Passing game. We have spent most of our spring working on running better routes, working on timing, and multiple route concepts attacking various coverage. Our QB was a sophomore last year, and he is getting better at identifying coverage. He is entering his second season in the same system and he is gaining confidence and he is starting to mature. Last season, the only way we could really move the ball was in the air, not having much of an offensive line. We have some larger and stronger bodies this year at offensive line and should see an improvement on the ground as well.

Potential breakout players: Lugo, Kijana and Hayes. All are returning starters and have gotten bigger, faster and stronger and more confident in their second year in our system.

Unique human interest story: We have a lot of group home

Returning key players and stats: Jr. RB Wyatt Jeffries (6-0, 175, 702 yards rushing in 2016); Jr. DL/LB Isaiah Sierra (5-11, 250; 33 tackles, five Sacks).

Strengths of offense during summer: Our Strengths are up front and with our core group of running backs. We graduated our top two running backs but we return Wyatt Jeffries who was third on the team in rushing as a sophomore playing in only seven games. We also have some juniors returning who saw plenty of action, Jalen Smith and Justin McKnight, are expected to pick up the slack. We have our junior starting QB returning, Alex Verdugo who is going to be starting his second year and has plenty of experience running our offense. We have a talented WR, Brandon Walker, who we are looking to get more opportunities. We have a steady offensive line that has been working really hard under our offensive line coach Dave Ivey. We played and started a lot of sophomores on offense last year so we can't use youth as an excuse for performance this year. I am looking forward to seeing our progress over the summer.

Team's biggest question marks heading into summer: Our biggest question mark is our defense. We will be putting in lots of time finding the key pieces to solidify the defense.

Unique human interest story: Head coach Jeffries had his kidney removed last spring and coached through summer and the season and is now cancer free.

Team's biggest question marks heading into summer: Who is going to step up and fill the roles of some elite play makers that helped us reach the state championship last year

Potential breakout players: Bell, RB Isaiah Smotherman, WR Bennett Nottingham, WR Larry Gerald and CB Jimmy Hamilton.

C Colton Karulski; So. QB Aiden Gonzalez (5-11, 155); So. TE/DE Jordan Bunting.

Strengths of offense during summer: Heading into summer we already have a good understanding of the base offense we run. I am excited to see them evolve as they get great at the small details that make an offense really work.

Team's biggest question marks heading into summer: What type of team we will be. Hard work this summer will reveal a lot about this question.

Potential breakout players: Corona, Teitelbaum, Bunting, Ja-come, Foshay, Johnson, Gonzalez, LB Brandon Torres, Karulski, G Peter Olberding and RB Saul Moreno.

Strengths of offense during summer: Team chemistry and determination. There has not been a turnover in coaches in three years, so stability will be a strength with small changes/modifications to the offense are made to accommodate the players.

Team's biggest question marks heading into summer: Depth at skill positions.

Strengths of offense during summer: Led the entire state in rushing for a 10 game season at over 4000 yards and are looking for more in 2017. Leading rusher in Alex Carrasco, is back for his senior season and will run behind two year starter on O-Line in Anthony Dennis. We play an old school, tough, in your face brand of football that represents what our kids and town value the most: toughness.

Team's biggest question marks heading into summer: Youth. Wranglers only return five players that will be seniors in 2017, though after success of making the playoffs last season, many more players are coming out to play again.

Florence's Jared Wood Emerged in 2016 As Top 3A QB in 1st Varsity Season

By Andy Morales
 azpreps365.com

In his first season on varsity, Florence senior quarterback Jared Wood threw for a 3A Conference best 2,870 yards and 37 touchdowns to help Florence finish with a 10-2 record last year.

He has caught the eye of the University of Washington and took part in the Nike and Elite 11 QB experiences this past summer.

"Jared is a student of the game," Florence coach Scott Howard said. "He studies film like no other quarterback I have coached. He has improved over the past year in his leadership. He has gone from being the quiet leader to the vocal leader of our team."

We asked Wood to reflect on last year, when his team lost to region foe American Leadership 38-21 in the quarterfinals, his summer and what he sees for 2017. The last time Florence won a state championship was in 1991.

The last time Florence experienced this kind of success you were in middle school. Can you describe the atmosphere that surrounded the team from the local community and the school?

"It was an unbelievable feeling and atmosphere around the school and around town. It seemed like that's all everyone talked about was how well the team was doing, and at each game having the almost the entire town there supporting us was just an unbelievable feeling."

When did you get a feeling last year was going to be a special season? "I had the faith and believed in our team that we were going to make a run from the first week. I just had a gut feeling that this year could be a special year for us."

American Leadership was your only roadblock last year, and you will not get a chance to play them again until the end of September. Has your team talked about remaining focused?

"Our team has talked about it many of times. Not only with American Leadership but with all the teams we are going to face this year. We can't just be focused about one game. We need to be focused on our game and how we play the game each and every week. We need to go into each week just like we would the next, focused on us executing on each side of the ball and playing Florence football."

This has been your team for a couple of years now and you are less than 200 yards away from breaking 5,000 career yards. Can you describe the success you had last year and what it will take to continue that success this year? "It's a great feeling to be able to have the success I have had these last few years. I wouldn't have been able to do what I have done without the help of my teammates. It just shows the hard work we put in as teammates last year. This year we just got to keep working on our timing and routes and getting a feel for each other on the field."

Tell us about your visit to Washington and any other college visits you may have taken. Did the visits give you an idea of where you need to improve? "The visit to Washington was a great experience and I was able to take a lot from it, along with my visit to Northern Arizona. The visits just helped me realize that even being from a small school you can be seen and you can get noticed. The visits also helped me realize how fast the next level is, and that is one of the main things I need to work on in my game."

Tell us a bit about the Nike and Elite 11 experience. "The Elite 11 experience was a once in a lifetime experience. The honor to be there and learn from these great quarterback coaches like Jordan Palmer was an honor. I just went into the camp focusing on taking in and learning everything I can from them and putting it into my game back here in Florence."

Was it more difficult to get noticed from a rural area like Florence or was that just another hurdle you had to overcome? "I feel like it's just another obstacle that we have to get through down

Senior quarterback Jared Wood keys the Florence offensive attack (photo by Darin Sicurello of maxpreps.com).

here. I feel being from a small school it just gives us something to prove that even kids from a small school can get to where they want to be."

You have an incredible crew of running backs playing their senior year with you. Nolan Sussel and Shane and Shelton Mathis gained close to 2,000 to help open up your passing game. Do you see another balanced attack this year? "I would not have the success I have had in the passing game without the help from our running game. Being able to have that threat of handing the ball to my back whether it is Nolan, Shelton, or Shane is an incredible weapon to have. It helps keeps defense on their toes because we can use both effectively."

On the other side, you lost your top five receivers to graduation. How has the timing and patterns worked out this summer with the newer guys? "I did lose my top five receivers last year but we have some tremendous talent coming up. We have just been trying to come together and repeat our routes and throws and get everyone on the same page as to what we are trying to do as a team this year."

You also return an incredible defense, and most of them will be seniors also. What kind of bond is there between the offense and the defense in your program? "We have an unbreakable bond between offense and defense in our program. Each side knows that we need the other to push us to be better. Each side works hard to help the other see what exactly they need to work on and improve on."

Finally, is there anything else you would like to say to your parents or the Florence faithful? "I just want to thank my parents for being there for me through all my high school career and I want to thank the town of Florence and all the faithful fans for being there for us and to support us at every game. Looking forward to another great season."

2A Conference Football Preseason Rankings

The 2016 Thatcher Eagles, 2A Football State Champions (photo by Jim Willittes of maxpreps.com)

By Jose Garcia
azpreps365.com

No. 1 Thatcher. The team's days of playing possum are over. Despite just missing the playoffs two seasons ago, Thatcher had the goods last year when it won the 2A title. A lot of the defending champ's key players graduated last year, but losing talent hasn't kept Thatcher from posting double digit victories in five of the past six seasons. Also, Jack Kortsen, Willcox's starting QB last year, moved in and might run Thatcher's potent option attack from the start if his transfer is approved in August. On defense, new defensive coordinator Russ Jones might switch to a three safety alignment.

No. 2 Phoenix Christian. The championship buzz is nothing new to Brian Cole, the first-year multi-championship coach who left Joy Christian for family reasons. Two of those reasons, Cole's sons, QB Hunter and OL Zachary, are starters on this year's PC team. Hunter,

a senior, will for the first time start at QB and run Cole's system, which Hunter started learning in middle school. About 18 seniors, a luxury in 2A, also have their sights set on a championship run. Look for WR/DB Corey Leary to have a breakout year.

No. 3 Round Valley. With only 3-5 seniors in the program this season, coach Bell will unveil his youngest team in his seven years at the helm. But what isn't new are the high expectations for a program that's reached the state semifinals in three of the past four seasons. The next 1,000-yard rusher figures to be last year's second-leading tackler, Dylan Workman, who's got a little Draycen Hall of Higley in him, Bell said. The muscle in Round Valley's back field this year will be fullback Colter Hogle, who will continue his nose guard duties this year. Three players were competing for starting quarterback duty.

No. 4 Pima. The program reached the state quarterfinals last year. Not bad after leaving 8-man football just two seasons ago. QB Josh

Whitaker lost his No. 1 target, but he still has 4-5 skill players at his disposal this year. State championship wrestler Ryan Lewis will continue to play linebacker but will also play some tight end this year. The defense needs to replace its defensive ends. "We should be able to regroup and be as good as we were last year," coach Jace Hancock said. "But we play in the toughest region in the state."

No. 5 Tempe Prep. The Knights will still run but unlike previous seasons the strength of this year's team will be their skill players. The plan is to get the ball in space more often with the help of Sr. QB Max Rich (13 career starts) and 1,000-yard rusher Ahmad Jones. The very physical Jr. Cannon Kartchner weighs just 175 pounds but will likely fill one of the two openings on the offensive line. The defense is a little banged up with non-football injuries, but nine defensive players started last year, and the secondary is one of the best in 2A.

No. 6 Scottsdale Christian. "We are going with who we got," coach Chuck Gibbs said. "I wish them (players who transferred) the best. I hope they did it for the right reasons." Two quarterbacks and the team's starting strong safety were among the 3-4 players who transferred. Soccer player Grant Schryer, a dual-threat, will start at QB. About 17-18 of the team's 45 players played about 400 snaps last year. "I like our prospects when it comes to November," Gibbs said. We'll see who's healthy."

No. 7 Paradise Honors. The Panthers won 10 in a row and their first playoff game last year in their first postseason appearance. This season, the team is capable of accomplishing more — if a couple of things fall into place. First, the new fulltime offensive linemen need to settle into their new roles. RB Sekou Tyler will try to take care of the rest and shoot for a 2,000-yard season with a deeper backfield. Jr. Dillon Behymer broke his jaw in Week 2 last year but is returning this year and ready to provide pressure off the edge.

No. 8 Santa Cruz. Since he's replacing 19 starters from a state semifinal team, coach Rishard Davis isn't as worried as you might think. He is, however, taking a wait-and-see approach this year. But his confidence rises knowing RB Titarro Jones, WR Raoul Corrales, QB Jesus Cosillos, OT Jose Salazar, MLB Curtis Banks and talented newcomers RB/LB Alec Meza and FS/TE Samuel Camacho are on the team. Camacho, a senior, is the school's starting goalkeeper but will see if his athleticism can also benefit the football team for the first time. Meza will have to sit out the first half of the season since he transferred from Casa Grande Vista Grande.

No. 9 Gilbert Christian. In his first season as head coach, former 3-year assistant Scott McDaniel will direct 17 returning starters and the team's flashy offense. The entire offensive line is back to protect QB Nick Hershey (only 8 INTs last year), the No. 1 returning QB in 2A in terms of passing yards (2,316) and TDs (31) despite missing four games last year. Sr. Max Webb (445 rushing yards in 2016) is moving to his natural position, slot, this year. The team is expecting more big things from Jr. LB Mitch Sullivan, who will also carry the ball this year. Sr. DB/WR Blake Kelly and Sr. DE/WR Brayden Finkbeiner didn't play last year but will this year, and they have All-Conference potential, McDaniel said.

No. 10 Benson. The Bobcats have more returning linemen on both sides of the ball compared to last year, which bodes well for Benson's wing-T, veer run game. "For us everything is won up front," 14-year coach Chris Determan said. But the running backs are new and young. Former Payson defensive coordinator Chris Taylor, who played for Determan, moved over to handle the DC duties at Benson. The Bobcats' four-man defensive front will welcome four returners.

Team's biggest question marks heading into summer:

Biggest question marks are if underclassmen can fill the void of lack of seniors. As of now we only have five going into this season.

Thatcher

Head coach: Sean Hinton.

2016 record: 12-2.

No. of returning starters on offense: 2.

No. of returning starters on defense: 4.

Returning key players and 2016 stats: Sr. QB/S Tyler Roebuck (6-1, 190. 103 receiving yards, 1 TD); Sr. RB/LB Jordan Herbert (6-1, 190. 23 tackles); Jr. OL/DL Quinten Mack (5-10, 225. 21 tackles); Jr. RB/DB Quinten Turley (5-9, 175. 43 stats); Jr. OL/DL Sam Nicholas (6-2, 250); Sr. TE/DE Layton Alder (5-11, 190).

Strengths of offense during summer: A good group of young guys eager to fight for lots of open spots. A good understanding of the offense and great team chemistry.

Strengths of defense during summer: Hard hitting and fast group with lots of talent looking to keep the tradition alive.

Team's biggest question marks heading into summer: Lots of shoes to fill but a lot of feet to choose from. We're looking for new guys to step and fill lots of empty holes.

Potential breakout players in 2017: QB Tyler Roebuck was a starting WR last year and is looking good along with fellow senior and returning starting LB Jordan Herbert. Our three starting sophomores from last year's team will play key roles also, Quinten Mack, Quinten Turley and Sam Nicholas. After sitting out half the year with an injury then making the play of the game in the championship game, Layton Alder could surprise teams.

Player who unexpectedly blossomed into starter over the past 2-3 seasons: Layton Alder.

Unique human interest story: Coach Battraw was my high school coach as a freshman and coach Morales was my junior high coach. Both are veteran coaches that bring a lot to the table.

NORTH REGION

Alchesay

Head coach: Brandon Newcomb.

2016 record: 7-4.

No. of returning starters on offense: 4.

No. of returning starters on defense: 5.

Returning key players and 2016 stats: Jr. RB/FS Tyreck Cosay (5-8, 170. 1,803 rushing yards, 34 TDs); Sr. OL Joseph Riley (6-0, 205), Sr. DL Josiah Colelay (6-1, 215), Jr. OL Cesar Hernandez (5-11, 250); Jr. QB/DB Kellen Parrish (5-10, 140); Jr. LB

Micah Bones (5-10, 160); Jr. LB Adriano Perry (5-10, 160); Jr. LB Nick Kitcheyan (5-5, 120).

Strengths of offense during summer: We return All-State RB (Cosay). Our QB (Parrish) started five games for us last year in place of his brother, who was injured, so QB experience is beneficial. Riley and Hernandez are returning lineman along with Colelay, who split time on the O-line. These players give us a good foundation to start with while we try to fill in holes of graduated players.

Strengths of defense during summer: Defensively, Bones and Perry saw significant time at LB. Cosay returns as our FS, and Colelay was a starter, who returns as a DT.

Team's biggest question marks heading into summer: We must replace eight seniors who were either 1st or 2nd team All-Region players. We will have a small number of seniors, but our junior class is filled with talented football players who will have to mature quickly. We open the season versus a very talented Phoenix Christian squad. We will have to have a great summer and fall camp to be prepared for the Cougars.

Potential breakout players for 2017: Cosay should continue to be one of the top players in 2A. Riley and Colelay will have to provide senior leadership for us. Hernandez should blossom into a two-way lineman.

Unique human interest story: Parrish will be the third straight Parrish boy to play QB at Alchesay. His older brothers, Brannen ('12) and Jalin ('17), played QB at Alchesay for multiple seasons. I like to compare them to the "Manning Family of the Whiteriver."

METRO WEST REGION

Arizona Lutheran

Head coach: David Peter.

2016 record: 3-7.

No. of returning starters on offense: 10.

No. of returning starters on defense: 11.

Returning key players and 2016 stats: Jr. RB/S Brandon Garcia (6-1, 175); RB/LB Jackson Gray (5-9, 170, 1,046 rushing yards); Jr. TE/DE Dylan Cook (6-3, 225); Sr. OL/DL Alex Jordan (5-10, 190); Jr. RB/CB Matthew Bernthal (5-8, 160, 7 TD's, 29 tackles); Sr. QB/CB Nick Naber (6-0, 170).

Strengths of offense during summer: More experience than last year. We had one senior on last year's team and started numerous sophomores. They're more familiar with our scheme.

Strengths of defense during summer: More experience and strength than last year. We've been working to be a bigger and stronger team.

Team's biggest question marks heading into summer: Even though we will have more depth than last year, it's always a question in smaller schools. We aren't rolling out 55-plus guys in a program like some 2A schools.

Potential breakout players in 2017: Cook. Last year was his first year, and he has tremendous potential. He's the younger brother of graduate Brady Cook. I think he will be a strong and a physical player for us.

Team's biggest question marks heading into summer: Line play.

Potential breakout players in 2017: Dondre Villalobos; Carson Barney.

Gilbert Christian

Head coach: Scott McDaniel

2016 record: 6-5.

No. of returning starters on offense: 9.

No. of returning starters on defense: 8.

Returning key players: Sr. QB/DB Nick Hershey (5-10, 165); Sr. WR/DB Drew DeBree (6-2, 185); Sr. WR/DB Max Webb (5-9, 165); Jr. RB/DE Mitch Sullivan (6-0, 180); Jr. OL/DL Hunter Trask (5-10, 210); Soph. OL/DL Joe Dickerson (5-10, 195); Sr. C/DL Carson Pogue (5-10, 250).

Strengths of your offense during the summer: The entire offensive line and most of our skill positions are returning this year. We did suffer two big losses (Caleb Young to graduation and Kyle Patterson to transfer). We expect to improve our running game behind the seasoned offensive line and should be great passing the ball with Sr. QB Nick Hershey throwing to returning receivers Drew DeBree and Max Webb.

Strengths of your defense during the summer: We have made huge strides in our pass defense over the summer. With a heavy focus on coverages and some strength and growth at our defensive line, we are looking forward to seeing big improvements on the defensive side of the ball.

Your team's biggest question marks heading into summer:

Our biggest concern coming into the summer was increasing the number of kids we have on the team. We have continued to build excitement in what we are doing in football and have been able to add to our overall team size.

Potential breakout players: Drew DeBree is looking to take over the primary receiver position vacated via graduation. While he was the No. 5 receiver in the section last year, we are expecting huge numbers from Drew this year. Max Webb is strong, fast and has great hands. Mitch Sullivan is moving into his junior year and has really focused on increasing his strength and speed. Where Mitch will shine is on defense. Finishing the year with 10 sacks last year, Mitch has focused on his defensive technique and is on the verge of becoming one of the best defensive players in 2A. Nick Pappas is new to Gilbert Christian but has shown to be coachable with great hands and defensively he has great instincts.

Player who unexpectedly blossomed into starter over the past 2-3 seasons: Senior Kolton Hobbs has been with us for four years and has continued to grow in confidence and skill. Kolton is undersized for a defensive lineman but provides the type of quickness and agility that will drive offensive linemen mad.

More about the team: The most notable thing about the 2017 Knights is the number of kids we have been able to bring out to play football. Last year, having 18 kids was tough. Practices were limited due to numbers and kids had to play offense, defense and special teams. This year we expect a final roster of about 40 kids and have some prior players returning to help lead us. Additionally, we have added a new offensive coordinator, Nathan Gregston, who is adding some octane to our offense.

Strengths of offense during summer: Big line. Fast backs. Smart QB.

Strengths of defense during summer: Same as offense.

Team's biggest question marks heading into summer: Re-building.

Potential breakout players in 2017: Rhynard.

Unique human interest story: Program is a complete rebuild. Most of the boys have never played. Completely different focus than the past.

Head coach: Brian Cole.

2016 record: 10-2.

No. of returning starters on offense: 8.

No. of returning starters on defense: 7.

Returning key players: Sr. C Tito Figueroa (5-10, 250); Sr. OL Isaac Pittman, (6-2, 210); Sr. OL Omar Navarro (6-1, 230); Sr. WR/DB Corey Leary (5-9, 170); Sr. WR/DB Daniel Frampton (6-1, 180); Sr. DL Jonathan Herrera (5-9, 220); Sr. DL Joey Thomas (5-10, 250); Sr. WR/DB Frankie Orosz (6-2, 175); Sr. QB Hunter Cole (6-1, 195); Sr. DB Kyle Janes (5-10, 170); Sr. TE Kole Ebert (6-4, 200); Jr. RB Malik Taylor (5-10, 180); Jr. DB/DL Dontae Gilbert (5-10, 250); So. LB Donte Gordon (6-1, 215).

Strengths of offense during summer: O-Line has five starters returning. They all spent a lot of time in the weight room this off season. QB position is solid with either Hunter Cole or Donte Gordon.

Strengths of defense during summer: The strength of our defense should be our D-line, as we have three starters returning. We also return all four starters at DB, including All-State corner Dan Frampton.

Team's biggest question marks heading into summer: Are the players going to pick up the new system.

Potential breakout players: Leary will be a two-way player who will have a ton of touches on the offensive side of ball. Hunter Cole has waited his turn and will have an opportunity to have a big year at QB. Donte Gordon could emerge as one of the best linebackers in the state. Dontae Gilbert should cause teams headaches on both sides of the ball.

Player who unexpectedly blossomed into starter over the past 2-3 seasons: Joe Burke and Mitch Schilling, both seniors, have worked really hard and will be key players for us.

More about the team: We have a very good senior class. I hope to get excellent leadership from them. If the team can pick up our offensive and defensive schemes, we should be very competitive.

Scottsdale Christian

Head coach: Chuck Gibbs.

2016 record: 10-3.

No. of returning starters on offense: 7.

No. of returning starters on defense: 9.

Returning key players and 2016 stats: Sr. WR Jacob Kaite (5-10, 170. 56 receptions, 1,179 yards, 21.1 ypc); Sr. OL/DL RJ Li-aiga (6-2, 310); RB Shayne Pahnke (5-10 174. 10.2 ypc, 956 rushing yards); Sr. Cole Bauer (6-0, 180. 170-plus tackles); Sr. Ryan Salmon (6-3, 184. 19 sacks, 9 tackles for loss, 121 tackles, 5 fumble recoveries); Sr. LB Banks Madden (143 tackles); Jr.

Tanner Gibson (140 plus tackles); Sr. CB/WR/KR Josh Phillips (5-9, 165, 68 tackles, 4 INTs); Sr. P/DE/TE Matthew Tooker (6-3, 210, Averaged 42.2 per punt); Sr. G Dominic Lorenzi (5-10, 205).

Strengths of offense during summer: The RB and WR positions are deep with a lot of experience. SCA also returns four starting OL who get better each year. Since 2013, SCA has averaged more than 9.3 yards per rush and expect 2017 to be no different. Seniors RJ Liaiga, Dominic Lorenzi and Dimitri Anthis are extremely talented, with junior starters Reece Uphaus and Hunter Hancock returning. Over the past two seasons, SCA's offense logged 536 All-Purpose yards/game and averaged over 41 points game.

Strengths of defense during summer: We return a tremendous amount of talent and experience. The DL returns seven players who started games last season. The LBs have six returning starters. The secondary has three returning starters, with three more who saw a ton of action. There is a great mix of size, speed and experience that will allow SCA to be very aggressive and continue the great tradition of takeaways and defensive scoring. Over the past two years, SCA's defense has recorded 55 takeaways and 13 Defensive scores, while surrendering just 17 points per game.

Team's biggest question marks heading into summer: QB and TE positions.

Potential breakout players in 2017: Seniors Jacob Kaite, RJ Liaiga, Dom Lorenzi, Josh Phillips, Ryan Salmon, Matthew Tooker, Bennett Reimers, Mathew Tooker, Jesse Moffett, Cole Bauer, Banks Madden, Devin McClay, Dimitri Anthis, Ashton Otto & Tanner Hoffman. Juniors Shayne Pahnke, Reece Uphaus, Hunter Hancock & Christian Pahnke. Sophomore Christopher Popkey.

Players who unexpectedly blossomed into starter over the past 2-3 seasons: Seniors Jesse Moffet, Cole Bauer, Banks Madden, Bennett Reimers and Devin McClay have earned their positions. Others: Hunter Hancock, Chis Popkey and Ben Con-salvo.

More about the team: I am excited about where our program is right now, regardless of a few transfers. SCA will field a tougher team than in years past, and our players are grinding in the weight room. This is the most experience SCA has returned in a decade or so. Last year marked SCA's first back to back 9-win season and the first 10-win season since the 8-man program won 1A state in 1983. We must continue to execute our systems, relentlessly get after people, and have fun as a brotherhood. The results will take care of themselves.

Strengths of offense during summer: We have a lot of experience on the offensive side of the ball. We return our QB, leading rusher, top 2 receivers and 3 of our best linemen. I am excited about our experience.

Strengths of defense during summer: The strength of our defense should be our D-line. We also will have good experience and some very intelligent players at linebacker this year.

Team's biggest question marks heading into summer: We

Jacob Kaite, Scottsdale Christian (photo by Mark Jones of maxpreps.com)

need to fill out and complete our offensive line. If we can fill two of the spots left by graduation, I think we will be in a good spot.

Potential breakout players in 2017: George Allen SarSar is a very athletic and big body who I think is going to burst on to the scene this year. He is strong and has increased his speed in the off-season. We are expecting great things.

Player who unexpectedly blossomed into starter over the past 2-3 seasons: Eddie Pivonka has been steadily getting better day in and day out. He is a little undersized but he has turned himself into an every-down player and a cornerstone of our defense.

Strengths of offense during summer: Experience in the skill positions led by Martinez. We are fast and feisty.

Team's biggest question marks heading into summer: Offensive line is young and inexperienced.

Potential breakout players in 2017: Martinez, Kennedy and Roundy. (Martinez is a) senior leader who has experience and the keys to the offense. (Roundy is a) natural football player who will get multiple carries per game. Kennedy is a tackling machine.

Player who unexpectedly blossomed into starter over the past 2-3 seasons: Martinez. He began as our QB last year and ended up starting every game. He showed toughness and has worked hard this year to become a passing threat.

Unique human interest story about program: This is our second year playing 11-man football. We have limited numbers on our roster. Our success this year will make a perfect movie script.

San Tan Foothills

Number of returning starters on defense: 5.

Strengths of your offense during the summer: We have two

quarterbacks battling, Sr. Brandon Williams (5-9, 170) and So. Zach Herrera (6-3, 150). Brandon is our running and throwing QB. He is known for his quickness and hard running as a RB last year. Zach can see the field and has good game management fundamentals. Sr. DeRonte Pope (6-0, 170), So. Amahri Bailey (6-0, 175) and Sabastian Penaflor (5-10, 155) are the backfield and are very capable of both running and catching the football. At our WR, we have Michael Holmes, So. Others who are expected to help include Jr. Lorenzo Cruz, Sr. Mason VanWinkle, Sr. Tristan Prado and Sr. Daniel Thomas.

Strengths of your defense during the summer: Our defense is lead by the returners in the secondary, Penaflor, Williams and Pope. We will have to rebuild our DL with Arant, LaPoint and Prado. McMahan and Bailey will help at LB and So. Adam Brogdon (5-11, 190) and Lorenzo Cruz (6-0, 260) will help with that process. Also, making an impact in the spring are new comers and brothers Jr. Caden Husar (5-10, 170) and So. Greyson Husar. Pushing for a starting position are So. Jacob Begley, Sr. Kyle Christiansen, So. Jacob Manalo, and Sr. Daniel Thomas.

Strengths of offense during summer: Experience with seven returning starters. Athleticism. We worked very hard in the offseason. Cohesion. QB Davis gets the receivers together and throws on the weekends.

Strengths of defense during summer: Experience. Eight starters return. We fly to the football. We are very multidimen-

sional on defense this year. We have a lot of speed on defense.

Team's biggest question marks heading into summer: Depth at certain positions. Overall size of the line.

Potential breakout players in 2017: Pablo Beltran has become a monster. He is very young for his grade, so he will play his senior year like he is a junior. Between QB Davis having the best off-season he has ever had, and with RB Angelo Anderson being healthy, those two should have a solid year on offense.

Players who unexpectedly blossomed into starters over the past 2-3 seasons: OL Pablo Beltran, OL Jesus Hernandez, WR Dalton Thompson.

Unique human interest story: Our players have been great members of the community. On April 1st, our players hosted a camp for the youth in the community where there was a great turnout.

Other details about your program: We are hungry after a disappointing season last year. With myself as head coach, offensive coordinator Nathan Bolden, and defensive coordinator Zack Gable, we were all first timers in our respective positions. This season, not only do our players have more experience but our staff as well. Line coach Josh Oliver also returns to us from a year stint at Westview, which is huge for us.

Entering the 2017 campaign, Israel Loveall has thrown for an astounding 109 touchdowns in his career at Bagdad (photo by Jim Willittes of maxpreps.com).

By Jose Garcia
azpreps365.com

Israel Loveall doesn't really know the origin of his unique last name but was told that the first Lovealls who settled in Arizona were robbers.

What he does know, however, is how to throw at a record pace. Last year, Loveall stole the show in 1A, establishing conference season passing and touchdown state marks en route to leading Bagdad to a state title.

His 59 touchdowns and 3,083 passing yards in 2016, when he also became 1A's career touchdown leader with 109, pushed him ahead of schedule of becoming the best quarterback, in terms of numbers, to play 8-man ball.

Loveall just needs to toss 598 yards to take over as 1A's career all-time passing leader and 22 more touchdowns to become the first Arizona prep QB to throw 131 career TDs. The national record for career touchdown passes in 8-man is 143.

Understandably so, the senior and his eye-catching statistics get lost among the traffic of elite signal callers stationed in Arizona this year. But the accomplished small school standout knows where he stands.

After all, the 5-10, 190-pound quarterback is seeking state titles not individual records. And if his pursuit of more championship bling leads to a larger following and football scholarships, then he'll welcome it.

But he actually wants to continue playing baseball at the next level. What Loveall is also after is that dang baseball championship trophy, which Bagdad let slip through its grasp the past two years.

Before football came into the picture, the first love of Loveall, a lefty and potentially the best pitcher in 1A, was baseball. This summer he is playing baseball in the Valley to see if it can help him continue to play the sport after high school.

But a football is never too far away. azpreps365 caught up with Loveall this summer as he was traveling to a summer passing event.

The topics of conversation ranged from his individual feats to his family name to his summer job, mixed in with a bunch of laughs. Loveall is certainly enjoying his run as one of the best to ever suit up in 1A.

"To me," said Bagdad's sixth-year coach Dalton Mills, "Israel is the best 8-man quarterback I've seen. He's a humble kid who works hard and demands the same from his teammates."

Q & A WITH LOVEALL

How's your summer going?: "Well. I'm playing summer baseball with AZ Pro. I've been playing in Phoenix for the summer. The coach came and saw me play during one of our regular season games and asked if I was interested in playing for AZ Pro."

When did you start playing baseball and football?: "Baseball was always my first love. I've played it since I was little. I started playing football in fifth grade. My mom (Monica) wasn't too big on the hitting and pads, though. So she never encouraged us to play. My mom was always scared. My dad (Michael) calmed her down a little, but she still freaks out. My dad records the games for the football team and sometimes you can hear my mom's voice in the background. Even last year she still worries after every hit."

You did hurt yourself last year in the state quarterfinals. How do you feel?: "I'm 100 percent. I flipped over a guy, but he clipped my foot, and I over rotated and landed on the side of my neck. It hurt. There was pain down my left side and lower back, and it was hard to throw. I just practiced once leading up the state semifinal. (Loveall threw five touchdowns in the semifinals.) But it was the playoffs. I couldn't miss the game."

Your coach told me that you were also working in the Valley while playing baseball: "I'm working with my brother, who's a subcontractor for Moon Valley nurseries. I do different jobs, but the main one is irrigation. We put lines in for trees and shrubs and plant them. We also bring in rock."

Being a state record breaking starting quarterback isn't as glamorous as it seems, huh?: "Nope. (laughs). But my

In 2017 Loveall could set the all-time Arizona prep record for career passing yards (photo by Jim Willittes of max-preps.com).

parents taught me that we have to earn what we want. But the heat is a factor. It gets hot. It was crazy when it was 118, 119. I always mess with them (his crew) that when I buy my house I'm going to hire them in the summer and have them come do my yard while I supervise."

That was a quite a year you put together in 2016. You broke three state records and capped the year off with a title.: "It was a year to remember. One of the high lights of my career. The main thing for me, and I always talk to it about my dad (Michael), is that no body will remember the stats. What I will always remember and what I was more focused on was winning a state championship. Once you do that everybody will remember that. It was a bonus with the records."

It sounds like your father plays a big role in your athletic career?: "It's pretty amazing having him around. He's coached us (Loveall and brothers) ever since we've been in Little League. He knows how to calm you down and what to say. He's more in the dugout. He knows all of the guys and is a great guy to have around. He doesn't let us get down."

Speaking of your brothers (Benjamin, 18, James, 22, Zach, 24), this will be the last year a Loveall will play football at Bagdad. In your opinion, which brother, including yourself, is the best athlete in the family?: (Pause.)

Be careful. Remember, you are the youngest so you don't want your brothers after you.: "(Laughs). It has to be Benjamin, athletic wise. With his speed and jumping, he had the ability to do a lot of things. Zach and James were equal. Me? I'll just say we are all athletic. But Benjamin still weighs 145. He wasn't the biggest. We still try to get him in the weight room."

Williams, the team you beat in the final last year, is being mentioned as the favorite this year. You lost a lot of experience last year. Your thoughts and expectations about this year?: "I'm really excited. We have a lot of young guys, especially in our sophomore class. They have to step up for us. We lost six starters on defense. With Williams being the favorite, anything can happen. You always want to believe you want to be the favorite. Williams wants us. They've lost three in a row to us. In my opinion I want to be the favorite. If we work hard, I think we can step up and have a good shot."

What's it going to take to finally get over the hump in baseball? "The past two years have been tough. It was funny. We were talking one day about how it can't get any worse than losing 2-0 to Pima in the final two years ago. Then we lose 1-0 in the semifinals this past year. Baseball is a weird game. Anything can happen. We have a couple of starting pitchers coming back. They've been competing well. We'll see how it goes this year. We have the talent to make another run in both sports. We just have to play hard."

You've thrown 50 or more touchdowns in each of the past two seasons. Can we expect another 50 this year? "I don't shoot for a number. But that would be crazy if I was able to accomplish that again, especially since I lost my top three receivers. I was with them for three years. But we have some good receivers this year. I just have to learn what they like to do."

Random question. What's your favorite subject in school?: "Math. I took pre calculus last year. Bagdad is linked with Yavapai Community College, so I will be able to take my college math prerequisites this year."

What are your career goals?: "I want to be a helicopter pilot. Four years ago we went on a cruise to Alaska. We were in one of the small towns and had a helicopter ride around the glaciers and fell in love with it."

What's the story behind the Loveall name? I bet a lot of folks poke fun at it.: "Some people actually mispronounce it. It's funny to hear all of the mispronunciations. I have to actually tell them it's Love-all. How it (last name) came about? I'm not to sure. I heard a rumor when I was little. These guys back east were robbers, moved out west and ended up with the name."

Just having fun here, but have you ever stolen anything?: "No! And even if I did, I wouldn't say anything (laughs)."

No. 1 Bagdad. Nose guard Scott Finnerty is the new No. 1 option for QB Israel Loveall. Finnerty also might run this year. One of the new offensive faces already making strides is sophomore Jauregui Elias. The team lacks depth for the first time under fifth-year coach Dalton Mills, who will design more runs plays for Loveall. "I really feel Williams has the best athletes overall, but Israel gives us a chance no matter who we play. He is the wild card."

No. 2 Williams. Its dual-threat QB transferred but three-year backup Diego Pedraza likely will step in. The defense, which returns its three leading tacklers, is led by one of 1A's best, LB Tate Grantham. LB Chance Pearson had 72 tackles as a freshman last year. Jr. WR/DE Zack Perkins had 11 sacks and is the team's returning leading receiver.

No. 3 Valley Union. Coach Ephram Ausseresses has a lot of letters in his last name and starters (12) back. What Coach A also wouldn't mind collecting more of this year are wins in his first year as a head coach. He's a disciple of Benson's coach Chris Determan's school of blocking and having multiple options in the backfield, something Valley Union has this year. What Valley Union also possesses is one of 1A's great multi-threats, QB/LB Derek Hahn, a senior who's more than ready to lead.

No. 4 Joseph City. After three uncharacteristic .500 or worse seasons, the Wildcats' mojo returned last year after reaching the state quarterfinals. LB Kaden Westover, a senior last year, will be missed after his 14 sacks, 77 tackles 2016 season. Last year, Sr. Matt Fields scored 19 of Joseph City's 54 TDs and rushed for 960 of the team's 2,111 yards. Seven of the team's 22 players last year were seniors in 2016.

No. 5 Mogollon. Last year was the first time the program didn't win at least seven games in more than 13 years. With the experience returning, don't expect that to become a two-year trend. Its leading all-purpose players of last year, Devon McLean and Trey Tenney, have two more seasons to do more damage together. But three of the four leading tacklers were seniors last year, so DB Seth Reidhead and the new new faces on defense will need to step up.

No. 6 NFL Yet. One of the biggest questions in 1A is if one of the conference's more explosive players, Shekeedran "BJ" Bryant (6-5, 190, 15 sacks last year), will play football in 2017? If he does, Bryant can help form an explosive triple punch along with WR/LB Dre'Quan Bryant and RB/DB Tyrail Carrethers. Coach Armando Ruiz is back, but for just one more season. He'll eventually fully promote his son, Armando Jr., to head coach. Soph. Isaiah Caston will step in as starting QB, and NFL Yet's offensive line will be comprised of freshmen, including Matthew Mata (6-2, 300).

No. 7 Mayer. The team lost its starting RB, TE and a LB but not its confidence and athletes who can step in and continue the momentum. Second-year quarterback Dylan Willhide is more composed, LB Dacodah Jensen is stronger, and look for Dade Hebert's quickness to be a big factor. Second-year coach Mike Gutierrez played on Mayer's 1995 championship team, was an assistant coach the last time Mayer won a title, 2006, and is one of three Mayer coaches who graduated from the school.

No. 8 Superior. The team will dress 12 new starters, but the new batch of players are ready to prove that they can continue the program's quest for a state title under 10-year coach Ryan Palmer. Steven Ybarra will take over as QB this year after paying his dues in the trenches last year. This year's teams also will be younger with the addition of a strong freshmen class that won middle school state championships. The program started with 30 players last year, but this year only 20 will begin the march toward another playoff berth. One of those players is one of the state's standout wide receivers, Marcos Bueno.

No. 9 Ray. Ray's new two quarterback system and experience (12 returning starters), especially in the secondary, should help rectify last year's problem spots. The strong-willed Jaden Pace joins the strong-armed Fabian Valenzuela as a signal caller this year. Valenzuela and Pace as well as Sr. Nathan Molar also are expected to lead the way in the secondary. Game cancellations, injuries and ineligibility issues also tripped up Ray last year, but that shouldn't be the case this season, second-year coach Frank Lechuga said.

No. 10 Salome. The Frogs will start about seven sophomores but most of them saw action last year, when the team continued its 6-year playoff streak. The leaders of the sophomores are RB/DB Pedro Velasquez, DB Joel Gonzales and RB/LB Octavio Martinez. The team also picked up a couple of key pieces, C Hugo Smith, who has recovered from an ACL injury, and Jose Armenta. Armenta didn't play last year but

Team's biggest question marks heading into summer: Offensively, the running back position. Defensively, replacing a lot of spots.

Potential breakout players in 2017: Besides Israel Loveall, Scotty Finnerty has the receiving skills to be one of the best receivers in the conference

More on the program: This will be a challenging year for us. We have our youngest team in the last five years, but have some quality younger players. Success will depend on how quickly we grow up.

Head coach: Bryan McCarty.

2016 record: 4-4.

No. of returning starters on offense: 4.

No. of returning starters on defense: 5.

Returning key players and 2016 stats: Sr. QB Oscar Cruz (5-9, 180. Threw for more than 500 yards and rushed for 828, scoring total of 14 TDs last year).

Strengths of offense during summer: Speed and quickness.

This is one of the fastest teams I've had heading into the summer. Our team will be very young, but most of them played significant minutes last season.

Strengths of defense during summer: Speed. We are thin at the LB position but we have a lot of DB's, and they are very quick and physical. We have some good speed/power/experience on the DL and 2 ball-hawking safeties.

Team's biggest question marks heading into summer: Depth on the offensive and defensive line. We have a solid starting line, but behind them, we will have to see who emerges coming out of the summer.

Potential breakout players in 2017: Junior Coby Hager, great speed and vision, just has to get consistent and protect the ball. Senior Jose Armenta. Back after taking a year off. Very gifted ath-

lete who gives our team something we didn't have last year, a home run threat every time he touches the ball. Junior Jacob Phillips. First time coming out for football but has incredible size/speed ratio. Is the power forward on the basketball team. **Player who unexpectedly blossomed into starter over the past 2-3 seasons:** Sophomores Pedro Velasquez, Octavio Martinez, Joel Gonzalez and Fabian Perez. They all started last season as true freshmen, and I wasn't expecting that. They played a huge part in getting us into the playoffs last season.

Strengths of offense during summer: We will be strong and physical.

Strengths of defense during summer: We will be strong and physical.

Team's biggest question marks heading into summer: Which underclassmen will step up and fill the holes we have.

Potential breakout players in 2017: Gerardo Cerna.

More on program: We have a lot of questions to answer after graduating a large senior class. There will be a lot of new faces on the field this year.

Superior

Head coach: Ryan Palmer.

2016 record: 9-1.

No. of returning starters on offense: 2.

No. of returning starters on defense: 2.

Returning key players and 2016 stats: Sr. WR Marcos Bueno (6-2, 190. 822 receiving yards, 13 TDS); Jr. QB Steven Ybarra (5-11, 185).

Strengths of offense during summer: Bueno is a tough matchup for opponents at WR. I expect he will draw some double teams and or zone coverage, which should open up our speed option run attack.

Strengths of defense during summer: Our defense is fast and we will try to capitalize on our strengths by utilizing a variety of blitz packages to pressure opponents.

Team's biggest question marks heading into summer: We lost several very talented seniors to graduation. We have been a contender each of the last two years. The biggest question will be can these underclassmen step up and fill the void left by those seniors.

Potential breakout play-

Quarterback Oscar Cruz, Salome (photo by Jim Willittes of maxpreps.com)

ers in 2017: Bueno will be a standout and I believe would be competing for a starting WR position on any team, at any high school division. Steven Ybarra is a great athlete and is a playmaker. He played offensive guard for us last season, not because he wouldn't have been a standout playmaker last season, but because it was what was best for the team. Look for Ybarra to shine.

Player who unexpectedly blossomed into starter over the past 2-3 seasons: We had a few freshmen that really contributed a lot last season. They have been working very hard in the weight room and expect a group of sophomores led by Daniel McConnell to play a key role on both sides of the ball.

Strengths of offense during summer: With six returning starters our offensive players have a very relaxed feeling towards

Marcos Bueno, Superior

each other since playing together last year. This will help out greatly in installing our offensive schemes.

Strengths of defense during summer: With our leading team tackler (Nathan Molar) returning, our defense will be ready to press the ball with our 11 other returning players that will help fill the void of losing two starters.

Team's biggest question marks heading into summer: Conditioning and pass defense. We need everyone to buy in to the program to get ready for the season. Improvement on our pass defense from last year will be key for us.

Potential breakout players in 2017: This year we will be junior heavy. These players will have to step up and take on more responsibility and be major contributors.

Players who unexpectedly blossomed into starter over the past 2-3 seasons: Jando Felix, Eric Manriquez, Bryen Lopez and Romeo Varley.

Strengths of defense during summer: Up the middle defense.

Junior Wesley Conyer, Duncan (photo by Darin Sicurello of maxpreps.com)

Our nose guard and middle linebacker will be very strong.

Team's biggest question marks heading into summer: Offensive line needs to be rebuilt. On defense we will need to replace one of the best DBs in the league.

Potential breakout players in 2017: QB Trey Tenney, RB/DB Seth Reidhead.

Unique human interest story: Freshman Jayk Kelton could see some varsity time. His grandfather is assistant coach Rick Samon.

No. of returning starters on defense: 6.

RB/LB Chance Pearson (5-10, 185. 559 all-purpose yards, 72 tackles); Sr. QB Diego Pedraza (5-10, 170); QB/returner Kolby (5-6, 140); Sr. WR/CB David Lozano (6-0, 160).

Strengths of offense during summer: Much more experienced team playing 8-man football. Have all of our skilled kids coming back, with the exception of our QB from last year, as he transferred to another high school. Most likely, Diego Pedraza, will lead our team this year. Has been a solid backup for three years and excited to have the opportunity to lead the team. Have solid underclassmen, which will help with team depth.

Strengths of defense during summer: The defense will be solid with lots of team depth. Core of defense returning. Returning is Tate Grantham, who was the Defensive Player of the Year. Our defense will play a vital role in our success this year.

Team's biggest question marks heading into summer: New QB as our junior QB transferred to another high school. Deigo Pedraza will lead our team this year. He already knows the offense and excited for the upcoming season.

Potential breakout players in 2017: Daniel Lopez and Chance Pearson. Lopez is explosive offensively and is a solid cover man who loves to hit. Pearson played LB for us last year and was a starter until an early injury in the season against Joe City. Pearson will be playing both sides of the ball as a LB and RB.

Senior LB Tate Grantham, Williams (photo by Jim Willittes of maxpreps.com)

Grantham should have another solid year.

Player who unexpectedly blossomed into starter over the past 2-3 seasons: Mike Bolen. He has worked hard for three years and should be a solid lineman for us.

More about the program: We are a very excited about the upcoming year. As a team we feel we have some unfinished business to take care of. We know everyone will be gunning for us and we like the thought of that as it will drive us harder. Getting back to the championship game will not be easy and we'll play one game at a time and work to get into the playoffs.

Head coach: Armando Ruiz Jr. and Armando Ruiz Sr.

2016 record: 7-2.

No. of returning starters on offense: 4.

No. of returning starters on defense: 4.

Returning key players and 2016 stats: Jr. DE/WR Shekeedran 'BJ' Bryant (6-4, 180. 15 sacks, 37 tackles); Sr. WR/LB Dre' Quan Bryant (6-0, 170. 5 TDs, 50 tackles); Sr. RB/DB Tyrail Carrethers (5-8, 155. 986 yards, 18 TD's); Sr. WR/LB Frank Garcia (5-10, 160. 79 solo tackles, 122 total tackles last season).

Strengths of offense during summer: Our skill positions and

incoming lineman are all freshmen and sophomores with a lot of room to grow and become the future of our program. A lot of speed, size and ambition from the young group.

Strengths of defense during summer: Our defensive line and defensive backs are our strongest position groups on defense. We have experience and grit in those positions and we are looking forward to their football IQ growth this summer.

Team's biggest question marks heading into summer: The quarterback position is our biggest question mark, as well as our young offensive line being able to adapt to High School Football. Potential breakout players in 2017: WR/DB Mark Ayala. He is an incoming sophomore with extreme athleticism and the desire to grow into one of our leaders. Also LB/FB Cristian Rueda. He is an incoming senior with leadership skills to help guide our team and the hard working attitude that will put him on the path to succeed.

Player who unexpectedly blossomed into starter over the past 2-3 seasons: WR/DB Jose Carrillo. Really good footwork and a knack for finding the football. He has blossomed as a sophomore coming into his junior year. He has learned everything we have asked and continues to grow.

Unique human interest story: We are an inner-city program with a culturally diverse group of kids, who come from economically challenged backgrounds but thrive under these circumstances.

More about the program: Third year in AIA. Our campus is growing every year and we are preparing our kids to be future servant leaders in our community through our sports programs.

SOUTH REGION

St. David

Head coach: Mike Brogan.

2016 record: 7-3.

No. of returning starters on offense: 0.

No. of returning starters on defense: 1.

Returning key players and stats: Sr. WR James Brogan had 13 catches for 131 yards and 2 TDs last year.

Strengths of offense during summer: We have the benefit of having coach Davis helping with the offensive game planning.

Strengths of defense during summer: Defensively we have a lot of questions to answer. At this point we are not even sure of our scheme.

Team's biggest question marks heading into summer: We have new coaches and zero returning players from last year. Experience will be our biggest drawback.

Potential breakout players in 2017: Our three seniors will all have an opportunity to contribute. James Brogan, Christian McGrath and Dawson Meador.

More info on program: This is a rebuild in the truest sense of the word. We will work hard over the summer and into the season to put a competitive team on the field. The weight room is where the process will begin. Our freshman class is talented and has a chance to contribute right away. We are looking forward to the season.

Trivium Prep

Head coach: Michael Spencer.

2016 record: 3-5.

No. of returning starters on offense: 8.

No. of returning starters on defense: 8.

Returning key players and stats: Sr. WR/DB Adan Sanders (454 receiving yards, 6 TDs); Sr. OL/DL Zach Hager (1st team all-region); Jr. QB Mason Moore (557 yards passing, 8 TDs); Sr. TE/LB Colby Bader.

Frank Garcia, NFL Yet (photo by Darin Sicurello of maxpreps.com)

Strengths of offense during summer: We have everyone returning from last year's team except one graduating senior. We are stronger and faster than last year and have continuity after a year of learning a new system.

Strengths of defense during summer: Experience and size will be a big factor for the upcoming year. The players had a year in the weight room will help matchup better against bigger players.

Team's biggest question marks heading into summer: We have had some new players join the team and will have to adapt very quickly to find a role on the team. We will be competing against bigger schools this summer in passing leagues and I am curious to see how we hold up against them.

Potential breakout players in 2017: RB Martin Bui made it to the state finals in the 100m for 2A and should have a solid year. Robert Sanders has size and speed also at RB and OLB and is poised for a big year. Matt Moore is 6-3, 285 and is on mission to have a breakout year.

Player who unexpectedly blossomed into starter over the past 2-3 seasons: Zion Gamilla was a freshman who has had huge success in the weight room and is a great leader already on the team. Will play both OL & DL.

More about the program: Last year was our first year in the AIA with only 35 seniors in the entire school. This year's senior class has only 15 boys in the entire class but fortunately 11 of those boys play football. This will be the last year in 1A and will make a jump to 2A next year.

Valley Union

Head coach: Ephram Ausseresses.

2016 record: 7-3.

No. of returning starters on offense: 6.

No. of returning starters on defense: 6.

Returning key players and stats: Sr. QB/LB Derek Hahn (5-10, 175. 877 passing yards, 14 TD, 0 INTs, 317 rushing yards, 9 TDs, 29 Tackles); OL/DL Tristan Lawson (6-2, 230); RB/WR/C (5-8, 160); Sr. RB/WR/C Anthony Zamora (5-8, 160. 434 receiving yards, 6 TDs, 23 tackles); Sr. DE/FB Jesus Smith (5-9, 175. 26 tackles, 7 sacks).

Strengths of offense during summer: The return of starting QB Derek Hahn will be a huge asset to our offense this year. We also have several returning specialty players that should make our offense explosive and fun to watch.

Strengths of defense during summer: We have some returning players that will make sure our defense is a strong unit.

Team's biggest question marks heading into summer: We have a few positions where we have some depth. It will be interesting to see who will start in certain positions.

Potential breakout players in 2017: Derek Hahn and Larry Stewart.

Player who unexpectedly blossomed into starter over the past 2-3 seasons: Kelan Richardson.
