The majority of information contained within this document is the result of the tireless work of Steven Doten and his website azfootballarchives.com. The site started out as a project many years ago as an "idea" based off calpreps.com and various Texas high school football websites. At the time no one was anyone covering Arizona high school football except for the media and newspapers. Steven first covered college football and Montana high school football back in 2002. The "Arizona high school football project" was first started in 2003 as a community college class assignment, when it first covered Tucson/Southern Arizona football only. The site eventually branched out to azfootballarchives.com.

The AIA football coaches record book was originally compiled by Tyler Bender, Laney Napoli, Marni Polansky and Seth Polansky (AIA Director of Media Services). Additional research materials compiled by Barry Sollenberger (former AIA historian).

Cover photo credits include: Jim Willittes/MaxPreps, Arizona Coaches Hall of Fame, and the AIA.
